

## GRENOBLE, FRANCE > SUMMER ABROAD

### COURSES

Students must enroll in the following course:

**CAS MA 213: Basic Statistics and Probability (4)**

(Prerequisite: good background in high school algebra. Students may receive course credit for not more than one of the following courses: CAS MA 113, CAS MA 115, or CAS MA 213.)

Elementary treatment of probability densities, means, variances, correlation, independence, the binomial distribution, the central limit theorem. Stresses understanding and theoretical manipulation of statistical concepts.

All students also enroll in a French language course at the appropriate level.

## Grenoble French Studies Program Track III Statistics & French Language

Students will have intensive French language instruction for 20 hours per week, starting at the beginning of the program. Language course instruction takes place on the campus of the Université de Grenoble's Centre Universitaire d'Etudes Françaises (CUEF). The CUEF has long been considered one of the best language-instruction centers in France.

The statistics course will begin to meet periodically concurrent with the French language course, and will be the exclusive focus during the final two weeks of the program.

No background in French language is required.

Upon successful completion of the program, students will earn eight Boston University credits.

### FACULTY

MA 213 will be taught by faculty from the Université de Grenoble. Language courses are taught by full-time language faculty at the CUEF.

### HOUSING

All students are provided with accommodations in French households throughout the city. Students are provided with a single room, breakfast and a specified number of evening meals in the home.

### ADMISSIONS

- Prerequisite: good background in high school algebra
- Refer to our policy on eligibility/admissions: [www.bu.edu/abroad/admissions](http://www.bu.edu/abroad/admissions)
