

LONDON, ENGLAND > STUDY ABROAD

The London Internship Program offers a semester of study and work in England's exciting capital city. This program combines a professional internship with coursework that examines a particular academic area in the context of Great Britain's history, culture, and society and its role in modern Europe. Courses in each academic area are taught by selected British faculty exclusively to students enrolled in the Boston University program.

Upon successful completion of the program, students earn 16 Boston University credits.
