Course Description

This core course for the Pre-Law track will provide an introduction to the history and the development of the British legal system (primarily as found in England), and carry out a thorough and rigorous examination of its contemporary iteration. The aim of the course is to describe the evolution and the contemporary aspects of the common law of Britain, of the legal profession of Britain, of the judiciary of Britain and of the legislature of Britain. It will examine the legal aspects of the British constitutional system of Government. The course will also consider the influence of the English common law/legal system on the development of the common law/legal system of America.

Learning Outcomes

- a student has acquired a basic understanding of law/custom in early Britain and, more particularly, of the importance of the Norman conquest, and the period immediately following, in the development of what is now called the Common Law
- a student has acquired a basic understanding of the further development of the common law, up to the current period, and understands in outline the development of the English system of courts from the Norman period to the latter half of the nineteenth century
- a student has reviewed, understood and can describe and explain in detail the modern development of the English system of courts (from c.1875 to date) and has reviewed,
understood and can describe and explain in detail the criminal and civil litigation processes

• a student has examined in detail the development and contemporary form of the main branches of the legal profession (including routes to qualification) and can describe, explain and critique them

• a student has examined in detail the contemporary form of the judiciary and can describe, explain and critique that institution

• a student has examined in detail the contemporary form of the legislature and can describe, explain and critique it

• a student understands the way in which access to justice is funded in the British legal system

• the student has acquired an operating vocabulary, an understanding of current legal trends and of local legal peculiarities which will be of use to that student in work placements on the internship phase (if the student is taking an internship) or in the future

Methodology
A lecture/discussion/field trip based theoretical and practical approach to the common law and the legal profession and the legislature (note: the Judiciary is treated as part of the legal profession). This course has been designed to give students a thorough overview of the contemporary British Legal System.

Attendance

Classes
All Boston University London Programme students are expected to attend each and every class session, seminar, and field trip in order to fulfill the required course contact hours and receive course credit. Any student that has been absent from two class sessions (whether authorised or unauthorised) will need to meet with the Directors to discuss their continued participation on the programme. This may result in the student having to take a medical leave of absence from the programme or withdraw from the programme.

Authorised Absence:
Students who expect to be absent from any class should notify a member of Academic Affairs and complete an Authorized Absence Approval Form 10 working days in advance of the class date (except in the case of absence due to illness for more than one day. In this situation students should submit the Authorised Absence Approval Form with the required doctor’s note as soon as possible). Please note: Submitting an Authorised Absence Approval Form does not guarantee an authorised absence

Students may apply for an authorised absence only under the following circumstances:

• Illness (first day of sickness): If a student is too ill to attend class, the student must phone the BU London Student Affairs Office (who will in turn contact the student’s lecturer).

• Illness (multiple days): If a student is missing more than one class day due to illness, the student must call into to the BU London Student Affairs Office each day the student is ill. Students must also provide the Student Affairs office with a completed Authorised Absence Approval Form and sick note from a local doctor excusing their absence from class.

• Important placement event that clashes with a class (verified by internship supervisor)

• Special circumstances which have been approved by the Directors (see note below).
The Directors will only in the most extreme cases allow students to leave the programme early or for a significant break.

Unauthorised Absence:
Any student to miss a class due to an unauthorised absence will receive a 4% grade penalty to their final grade for the course whose class was missed. This grade penalty will be applied by the Academic Affairs office to the final grade at the end of the course. As stated above, any student that has missed two classes will need to meet with the Directors to discuss their participation on the programme as excessive absences may result in a ‘Fail’ in the class and therefore expulsion from the programme.

Lateness
Students arriving more than 15 minutes after the posted class start time will be marked as late. Any student with irregular class attendance (more than two late arrivals to class) will be required to meet with the Assistant Director of Academic Affairs and if the lateness continues, may have his/her final grade penalised.

Reading
2. Ad hoc readings as distributed in class
3. Additional readings are posted on Blackboard: http://learn.bu.edu

You are expected to have read the set reading for each class session (with the exception of Session One). You may be advised of further reading during the course, particularly with regard to assisting you with your paper.

Important: Please ensure that you read, on a daily basis, a “serious” British broadsheet newspaper such as the Daily Telegraph, Financial Times or, for a left-of-centre perspective, The Guardian. The Times and the Independent are alternatives. Some of these are available in the ejournals section of the online BU Library (https://www.bu.edu/library/). *Every class day select a particular article you feel is relevant to the course (and, ideally, to that day’s class in particular) and be prepared to summarise it for the class and then to lead a class discussion on the subject matter.* For context, there are also excellent weekly journals such as The Economist, The New Statesman and Society etc. Try to watch relevant current affairs programmes on terrestrial television. This reading and viewing will keep you abreast of any rapidly changing areas.

Course Assessment
There will be an end-of-course 2-hour seen final examination worth 40% of your final grade. You will be required to answer two from a choice of four exam questions. Suggested approach: 10/15 minutes outlining answer, 40/45 minutes writing answer/indicative length – 3.5 pages, not to exceed 4.5 pages per question. Closed book. The grade you receive will be based upon:

- The relevance of your answer to the question/topic set/to be discussed
- Clarity of expression and continuity
- Evidence of reading and thought related to the question/topic
• Quality of the arguments presented
• Grading Criteria set out in your Academic Handbook

You will also be required to write a 2500 word paper based on work done in addition to class-based topics. The paper topic is

“The English legal profession should be fused, and not split into two main branches as now” - Present the case for or against this statement.

There is no choice of paper topic. The paper will count 60% towards the final course grade. The grade you receive will be based upon the bullet points just above and upon, in addition, the proper attributed use of illustrative material from texts, periodicals, press or other media. **Hand in to Student Affairs Office (AND email a .pdf copy to dcarey@bu.edu) before Core Lecture 7, Thurs 4 Feb 2016. You must SIGN the signature sheet when you hand in your paper - "no signature = no hand in". Note that this sign-in rule also applies to the papers you will be handing it during the internship phase.**

Class attendance will be used in the moderation of the final grades. Being absent from class without a valid reason will result in a diminution of this grade on a pro-rata basis. Equally, excellent attendance will be reflected in an uplift of the grade where the examination result is borderline.

**Grading**

Please refer to the Academic Handbook for detailed grading criteria and policies on plagiarism: [http://www.bu.edu/london/current-semester](http://www.bu.edu/london/current-semester)

*Final Grades are subject to deductions by the Academic Affairs Office due to unauthorised absences.*
