Boston University, Paris

Boston University Paris is home to a variety of different programs. These range from the Paris Internship Program to short summer programs. In addition, we offer two direct enrollment programs with Sciences Po Paris and Université Paris Dauphine.

Since its inception in the summer of 1969, BU Paris has shepherded more than 2100 students who live with French hosts throughout the city and a few in the Pavillon des Étudiants dorm.

Read words of reflection from alumni of the program about how their study abroad experience impacted their life and career path.

This site is primarily for enrolled students and gives more details of our program and support services. If you are interested in studying in Paris, please see the Boston University Study Abroad website which includes the online application form.

What is an Academic Internship?

An **academic internship** is defined as:

- A **supervised, academic, hands-on professional practice experience**, in a sector which is of career interest to you….or maybe is not for you!

[http://www.bu.edu/paris/internships/](http://www.bu.edu/paris/internships/)

Please note that internships cannot be extended beyond the dates of the program, due to strict French labor laws.
What CAN an academic internship offer?

*Can* provide professional experience and practice
*Can* offer exposure to different management styles and organizational structures
*Can* help build your professional network
*Can* enhance cultural awareness and language skills
*Can* help you hone problem-solving skills
*Can* make you become more adaptable as an employee
*Can* help identify your skills, interests, and values to discover career paths that are (or are not) a good match
*Can* integrate your practical learning with your academic work and field of study
*Can* provide transferrable and valuable skills like perseverance and grit (especially if getting through tasks you don’t necessarily love)
What an academic internship is NOT:

*Not* your dream job!
*Not* the key to an automatic job offer
*Not* specialized job training
*Not* exciting and engaging 100% of the time
*Not* necessarily a globally recognized company name
*Not* the same experience as your friends
*Not* optional – must complete full internship time; participation is mandatory
*Not* all about you! Consider the needs of your company and think of it as a way to gain new skills or work habits

• Find out fees & affiliated banks; sign up for online banking

• $1 = €0.84; €1 = $1.19
• ATM card and credit cards – 4 # pin
• Bring € 100-150 in cash for arrival
• **Mobile Phones**
  - You must have a local number for emergencies and ease of use
    - Local Pay-as-you-go plans are the easiest and most economical. You can either get a whole new cheap phone, or just a new simcard
    - Keep your current smartphone on “airplane mode” and use apps on Wi-Fi when it’s available.
    - US-based international mobile phone plans are more expensive and often don’t work. Skip them.

• **Staying connected with home**
  - Skype/Facetime
  - Email, messaging, and apps (WhatsApp)
  - Differences locally (i.e. wifi availability, internet speed, limited hours of use, electricity etc.)
  - Follow BU Study Abroad on Facebook & twitter

1. Research your host country prior to departure
2. Keep an open mind
3. Search out new experiences and friends
4. Do not judge the people of a country by one person or one experience
5. Keep a sense of humor
6. Listen and observe rather than merely see or hear
7. Reflect daily to process your experiences
8. Use your host university’s support system
9. Stay in touch with home
10. Remember you have traveled far to learn about and experience a new culture, and to represent your country and school; most people only DREAM about having this experience.

There is no "best way" to deal with culture shock; it always depends on the individual.
Paris is a beautiful city, with many famous tourist attractions.

but it’s also important to embrace the gray skies of Paris… especially in winter!
Go out and find your Paris!
