Your bridge to the world
WE PRESENT...
URBANITE
The student residential complex is located in Puebla offering 232 individual suites for university students.

The complex was built with you in mind. As a student you will have everything you need within reach. At Urbanite you will be able to:

- Maximize your academic performance
- Strengthen your social relations
- Experience an unforgettable study abroad
WHY SHOULD YOU LIVE IN URBANITE?

- We make your student life easier.
- You can study whenever and wherever, in your room or the study hall, alone or with your friends.
- You have your own private space, but can also spend time with other 231 “Urbanites”.
- You don’t have to worry about external services, cleaning your room, washing your clothes or fixing damages. We take care of that so you can focus on what really matters.
- We know not everything is all about studying. There are also moments to socialize and have fun, spending time with other students from different places and cultures at the gym, at the sports court, the cafeteria or the roof garden.
WHO IS AN URBANITE?
An URBANITE is an **active, cultured, social, ecological** individual who wants to fully develop and get to know other cultures and customs.

So if you like meeting new people, creating new relationships that will benefit your future, participate in activities, events, trips and be a worldly person...
