Addiction-Related Research Grants Since 2006

Total = $133 million, 105 PIs

Boston University Medical Campus
$36 million
44 PIs

Boston Medical Center
$46.8 million
17 PIs

School of Public Health
$30 million
20 PIs

Charles River Campus
$7 million
6 PIs

School of Social Work
$5.3 million
8 PIs

Boston VA Medical Center
8 million
10 PIs
Clinical Populations

Boston Medical Center
- Primary Care
- Pediatrics
- Emergency
- Psychiatry
- Data Warehouse

Charles River Campus
- Student Health Services
- Psychology

Neighborhood Health Centers
- Screening & Brief Intervention & Referral
- Medication-Assisted Treatment

School of Social Work
- Community Treatment Programs

City of Boston Programs
- Methadone Maintenance
- Women’s Treatment

Boston VA Medical Center
- Inpatient
- Outpatient
- General Medicine Clinics
- MAVERIC Data Warehouse
Speakers

Marlene Oscar-Berman, PhD
Professor, Department of Anatomy & Neurobiology, BUSM; Director, Laboratory of Neuropsychology

Transdisciplinary Alcohol Research: Opportunities in research on effects of gender on addiction

Lindsay Farrer, PhD
Professor of Medicine, Neurology, Ophthalmology, Genetics & Genomics, BUSM; Professor of Epidemiology, & Biostatistics, SPH; Chief, Biomedical Genetics section

The Genetics of Addiction: Emerging opportunities for BU investigators to take the next step toward developing interventions that build on these findings

Jeffrey Samet, MD, MA, MPH
Chief, Section of General Internal Medicine, BMC; Vice Chair for Public Health, Department of Medicine; Professor of Medicine & Community Health Sciences, BUSM & SPH

Key Advantages That Access to Large Clinical Populations Provides BU Investigators

Kathleen Kantak, PhD
Professor in Department of Psychology, BU; Director, Laboratory of Behavioral Neuroscience

Putting the Pieces Together: Developing a university-wide program proposal to understand and test interventions for cue extinctions in cocaine addicts

Panel on Opportunities for Collaboration

Domenic Ciraulo, MD
Professor and Chairman, Department of Psychiatry, BUSM; Psychiatrist-in-Chief, BMC; Professor of Psychology, BU

Richard Saitz, MD, MPH
Professor of Medicine and Epidemiology, BUSM & SPH; Associate Director, Office of Clinical Research, BUMC; Director, Clinical Addiction Research and Education (CARE) Unit, Section of General Internal Medicine, BMC; Director, Division of Clinical Research Resources, BU Clinical Translational Science Institute

Lena Lundgren, PhD
Professor, Social Welfare Policy; Director, Center for Addictions Research and Services; Director of Research, BUSSW

Terence Keane, PhD
Professor and Vice Chair, Department of Psychiatry, BUSM; Assistant Dean for Research, BUSM; Director, Behavioral Science Division of the National Center for PTSD; Associate Chief of Staff for Research, VA Boston Healthcare System

Jeffrey Samet, MD, MA, MPH
Chief, Section of General Internal Medicine, BMC; Vice Chair for Public Health, Department of Medicine; Professor of Medicine & Community Health Sciences, BUSM & SPH

Key Advantages That Access to Large Clinical Populations Provides BU Investigators

Kathleen Kantak, PhD
Professor in Department of Psychology, BU; Director, Laboratory of Behavioral Neuroscience

Putting the Pieces Together: Developing a university-wide program proposal to understand and test interventions for cue extinctions in cocaine addicts
