

HOW TO BURN YOUR FILES ONTO A CD

1. Hit the Eject button (on the top right hand corner of your keyboard) and put in a blank CD into the drive.
2. Create a new folder on the Desktop by first clicking on the Desktop then going up to FILE→NEW FOLDER. Name the folder something you will remember.
3. Put all the images you want into that newly created folder.
4. If you SEE a folder on the Desktop called “Burn Folder” GO TO STEP 9
5. Click on the “Roxio Toast Lite” icon that is on the Desktop’s DOCK on the bottom.
6. Once it is open you can simply drag the newly created folder with all your images into window so it looks something like this:

7. After that simply click on the big red RECORD button and another window will come up and click on “Write Session”
8. Once the CD is finished burning yet another window will come up and simply click on “EJECT”. Take your CD out and hit the EJECT button on the top right hand corner of your keyboard to slide the tray back in and please Quit the Roxio Toast Application and “DON’T SAVE”
9. Open the Burn folder and make sure its empty. If it’s not empty delete everything from that folder by dragging it into the Trash icon on the Desktop so it looks something like this:

10. Then place the newly created folder with all your images into the Burn Folder.

11. Then simply click on the “BURN” button and it will copy the files to your CD and then you will see it on the Desktop. You can eject it out of the Drive with the top right hand button on the keyboard.
