Fall Retreat- First Weekend of October

-Of all events this is the most important- early in the semester (gives group a chance to connect), each year especially Freshman come back having created new and long lasting friendships, adamant about requesting funding because more people are likely to come if they can pay less

-in the past years they have had a scholarship for Freshman so they can go for free

-this really brings the group together, helps people find their niche

- taking 80 people

-What does it bring back? Way to take a weekend away from campus and connect spiritually giving them a better idea what the group is about. Enriching spiritual life

-What happens: Friday Afternoon (get together with BU students and other college students)

Meal times, Game night, speaker, discussion, fun lake activities.
