

Internship Opportunity

Boston University Chronic Traumatic Encephalopathy Center

Boston University School of Medicine

Longitudinal Examination to Gather Evidence of Neurodegenerative Disease (LEGEND)

Looking for an undergraduate, recent graduate or graduate student interested in obtaining extensive clinical trial experience, including direct participant interaction, data entry, and neurocognitive test administering.

•

Major duties include the following: scheduling and conducting participant interviews, data collection and entry, clinical data analysis, administrative tasks, neuropsychological testing, and other duties assigned by your supervisor. In addition to daily tasks, you will have the opportunity to be a part of a research project within either the CTE center or the Alzheimer's Disease Center.

This is an unpaid internship.

•

Commitment

- 1-year commitment
- Minimum of 20 hours a week

•

Skills needed:

- Student in Health Sciences or other biological discipline
