

Fall 2018 Course Offering

AN 243

Shamanism

Professor Frank Korom
MWF 11:15-12:05

Come enter the fascinating world of shamans and their ritual practices.

They practice the most archaic healing techniques in the world, involving shapeshifting, altered states of consciousness, drumming, vision questing, fasting, and more, all for the benefit of the entire community in which these talented individuals reside.
