

## **EAST AFRICA: Order and Change (Area)**

**AN323**

**Prof. P.M. Shipton**

**M,W,F 2:30-3:20**

Course Description: Explore East Africa and its people's relations to time, space, and social order. Topics include issues such as settlement order, birth order, inter-generational relations, ritual, and ceremony — as challenged, upset, and reformed. Issues of age and gender, and of control, rebellion, belief, and ethics, play out in youth and class movements, and in other political, economic, and religious affairs. Other parts of the world are compared.
