

Participate in Aphasia Therapy

Information about Aphasia Research Laboratory

At the Aphasia Research Laboratory, we are conducting numerous experiments to determine the effectiveness of language treatment in individuals with word finding, sentence formulation, and sentence comprehension, reading, writing and memory problems.

IF YOU SPEAK ENGLISH AND IF YOU HAVE HAD A STROKE AND HAVE DIFFICULTY WITH ANY OF THE FOLLOWING

- Understanding what people say
- Communicating effectively with family and friends
- Finding words at times
- Reading and writing words
- Remembering events and details

Please call the Aphasia Research Laboratory at (617)-358-5478.

Study Information

Prior to initiation of the experiment, your language abilities following the stroke will be assessed through standardized language tests. Following that, you will receive speech/language therapy to improve your communication abilities. The duration of therapy can range from 2 - 7 months, at no cost to you. Throughout the therapy, you will be provided with feedback on your progress.

Even if you have previously received speech therapy, you are eligible to participate in these experiments.
