

5 October 2009

Dear ASOR Members and *BASOR* Subscribers,

BASOR 355 (the August 2009 issue) was recently printed and sent to the mailing facility, which began distribution. At that point it was discovered that there had been a printer's error. We immediately stopped distribution of the issue and informed the printer of the error. Unfortunately, all of the copies destined for domestic subscribers had already been put in the mail.

The printer's error has now been corrected, and the printer will reprint *BASOR* 355 early in the week of 5 October. We expect distribution to start anew later in the week. If you receive two copies of *BASOR* 355, please discard the copy that does not include the note indicating it is the corrected copy.

We apologize for this delay and inconvenience.

James M. Weinstein
Editor, *BASOR*

Jeffrey A. Blakely
Vice-President for Publications
