

AUTISM RESEARCH STUDY

Boston University Department of
Speech-Language Pathology is looking for
participants for a study involving parent-
child play interactions

You and your child can help advance research in language development by participating in our study!

We are looking for both children with autism and typically developing children between ages 3 and 4 years and their parents.

Details about the study:

- The study will take about 45 minutes and involves language testing and an observed parent-child play session.
 - The study will take place at our language lab or in the convenience of your own home, depending on your preference.
 - Our lab is easily accessible by subway or car. We provide a free parking pass if you drive adjacent to our laboratory.
 - Parents will receive the results of standardized language testing administered to their child, should they wish.
 - Each family will receive a \$30 gift certificate to Borders as compensation
 - To participate, please call (617) 358 1395 or email ejoseffy@bu.edu or Pagnotta@bu.edu or sign up at <http://www.bu.edu/babies/participate.html>
