

CURRICULUM VITAE

DEAN R. TOLAN

ADDRESS: Biology Department
Boston University
5 Cummington Mall
Boston Massachusetts 02215
(617) 353-5310
(617) 353-6340 (FAX)

E-mail: tolan@bu.edu
web site: <http://www.bu.edu/aldolase>

Office: 24 Cummington, Room 702
Lab: 24 Cummington, Room 724

EDUCATION:

Postgraduate:	Institution:	University of California Davis California 95616	Ph.D. in Biochemistry, 1981
Undergraduate:	Institution:	University of Colorado Boulder Colorado 80301	B.A. <i>cum laude</i> in Chemistry, 1975

PROFESSIONAL EMPLOYMENT:

2015-present	Director, Undergraduate Studies, Biology Department, Boston University
2015	Member, Genome Science Institute, Boston University Medical Center
2009	Visiting Professor, University of Naples Federico II, ITALY
2003-2005	Director, MCBB Graduate Program, Boston University, Boston MA
1999-present	Professor of Biology, Boston University, Boston MA
1999-present	Professor of Bioinformatics, Boston University, Boston MA
1997-present	Director, HFI Laboratory - Boston University (CLIA approved), Boston MA
1996-present	Professor, Molecular Biology, Cell Biology & Biochemistry (MCBB) Graduate Program, Boston University, Boston MA
1996-2003, 2005-08	Associate Director, MCBB Graduate Program, Boston University, Boston MA
1996-1997	Visiting Professor, Institut für Biophysik und Physikalische Biochemie, Universität Regensburg, Regensburg, GERMANY
1993-1999	Associate Professor of Biology (tenure), Boston University, Boston MA
1987-1993	Assistant Professor of Biology and Interdepartmental Biochemistry, Boston University, Boston MA
1984-1986	Assistant Specialist Biochemist, University of California, Berkeley CA
1981-1984	NIH Postdoctoral Fellow, Biochemistry Department, University of California, Berkeley CA

AWARDS AND HONORS:

2000	Provost's Innovation Fund Research Award
1996	Deutscher Akademischer Austauschdienst Scholarship (DAAD)
1987-1992	NIH - FIRST Award
1988	ASBMB: 14th IUB Travel Award
1983-1985	NRSA Postdoctoral Fellowship
1979	NATO/EMBO Travel Fellowship, Island of Spetsai, Greece
1976-1979	NIH Traineeship, University of California, Davis
1975-1976	Teaching Assistantship Award, Biological Chemistry Department, Univ. of California, Davis
1971-1973	Regents Scholar, University of Colorado, Boulder

MEMBERSHIP IN PROFESSIONAL ASSOCIATIONS:

Human Genome Variation Society (Gene Editor) - 2004
Protein Society - 1994
Society for Inherited Metabolic Disorders - 1991
American Society of Biochemistry and Molecular Biology - 1988
American Society of Human Genetics - 1987
American Association for the Advancement of Science - 1984
American Chemical Society - 1980

Seminars and Invited Lectures:

- From Bench to Bedside: Hereditary Fructose Intolerance*, Boston Children's Hospital, Harvard Medical School, Boston MA, May 23, 2017.
- Metabolic disease: Knockout mice for investigation of diseases, Research on Tap: Understanding the Rules of Life: Predicting Phenotype*, Boston University, Boston MA, April 25, 2017.
- From Bench to Bedside: Hereditary Fructose Intolerance as an Orphan Disease Indication*, Biology Department Boston University, March 21, 2016.
- Site-Directed Mutagenesis Effects on WASP-Aldolase Interactions*. New England BioLabs, Ipswich MA, August 4, 2015 (given by Kevin Rhine).
- Hereditary Fructose Intolerance in the American Population*. University of Colorado, Anschutz Medical Campus, Division of Renal Diseases and Hypertension, April 8, 2014.
- The Warburg Effect*. Lectures in Carcinogenesis (BI576), Biology Department, Boston University, Boston MA, February 26, 2014.
- The Warburg Effect*. Lectures in Carcinogenesis (BI576), Biology Department, Boston University, Boston MA, March 20, 2013.
- Molecular Genetics and Pathophysiology of Hereditary Fructose Intolerance in the American Population*. Tufts Medical Center, Floating Hospital for Children, Division of Genetics, Grand Rounds, June 27, 2011.
- The Warburg Effect*. Lectures in Carcinogenesis (BI576), Biology Department, Boston University, Boston MA, April 13, 2011.
- Protein Dynamics provide the Substrate Specificity in the Fructose 1,6-bisphosphate Aldolase Isozymes*. Département de biochimie, Faculté de médecine UNIVERSITÉ DE MONTRÉAL, March 9, 2010.
- Enzyme dynamics involved in substrate specificity: Evidence for differential conformational changes distant from the active site during the aldolase catalyzed reaction*. 23rd Symposium of the Protein Society, Boston, MA, July 28, 2009. [presented by Florencia Rago]
- Enzyme dynamics involved in substrate specificity: Evidence for substrate specific conformational changes distant from the active site during aldolase A catalysis*. 11th Annual Beckman Scholars Symposium, University of California-Irvine, CA, July 24, 2009. [presented by Florencia Rago]
- Fructose metabolism in tolerant and intolerant humans*. CEINGE Biotechnologie and Università Degli Studi di Napoli Fredrico II, Naples, ITALY, June 12, 2009.
- Conformational dynamics in normal and pathogenic aldolases*. CEINGE Biotechnologie and Università Degli Studi di Napoli Fredrico II, Naples, ITALY, June 12, 2009.
- Fructose: Succumbing to Our Sweet Tooth*. BIOMixer, Biology Department, Boston University, Boston MA, October 25, 2007.
- Using genomic expression data for discerning tissue-specific patterns of sugar metabolism: The resourcefulness of neurons*. 232nd ACS National Meeting, Division of Biological Chemistry, San Francisco, CA, September 13, 2006.
- Conformational flexibility and distance effects determine kinetic distinctions among aldolase isozymes*. International Union of Biochemistry and Molecular Biology, Boston, MA, June, 13, 2004.
- Fructose Metabolism: In vitro, In vivo, and In silico*. Department of Physiology and Biophysics, Boston University School of Medicine, Boston, MA, March 18, 2003
- Progress in Understanding the Quaternary Structure of Aldolase*. Institut für Biophysik und Physikalische Biochemie, Universität Regensburg, Germany, May 30, 1997
- The Mechanism of the Schiff Base Forming Aldolases and Other Enzymes Investigated by Site-Directed Mutagenesis and Pre-Steady State Kinetics*. Department of Chemistry and Biochemistry, The University of Texas, Austin, TX, May 2, 1997
- Structural Consequences of Both Hereditary and Site-directed Mutants of Aldolase A*. Institut für Biophysik und Physikalische Biochemie, Universität Regensburg, Germany, April 25, 1997
- The Mechanism of the Schiff Base Forming Aldolases and Other Enzymes Investigated by Site-Directed Mutagenesis and Pre-Steady State Kinetics*. Department of Chemistry, University of Exeter, United Kingdom, April 17, 1997
- The Mechanism of the Schiff Base Forming Aldolases and Other Enzymes Investigated by Site-Directed Mutagenesis and Pre-Steady State Kinetics*. Department of Biochemistry and Molecular Biology, University of Leeds, United Kingdom, April 16, 1997
- Homology in Biology*. Institut für Biophysik und Physikalische Biochemie, Universität Regensburg, Germany, February 28, 1997
- Selection of Primers for PCR and Mutagenesis*. Institut für Biophysik und Physikalische Biochemie, Universität Regensburg, Germany, January 17, 1997

Seminars and Invited Lectures (continued):

- Hereditary Fructose Intolerance: Molecular Analysis of Mutations and Polymorphisms in the Aldolase B Gene.* Biomedical Sciences Division, Meharry Medical College, Nashville TN, August 25, 1995
- A New Mechanism for Class I Aldolase Based on Site-directed Mutagenesis.* Chemistry Department, Boston College, Boston MA May 9, 1995
- How Does Aldolase Break a Sugar into Bits?* Worcester Enzyme Discussion Group, University of Massachusetts Medical Center, Worcester MA, May 4, 1995
- Genetics, Pathology, and Diagnosis of Hereditary Fructose Intolerance: Molecular Analysis of Mutations.* Center for Human Genetics, Boston University Medical School, Boston MA November 29, 1994
- Use of the Polymerase Chain Reaction in Identification of Mutations and the Diagnosis of Disease.* American Chemical Society Regional Meeting, Keynote Address, Bethany College, WV April 18, 1994
- Polymerase Chain Reaction in Diagnosis and Research.* Department of Chemistry, Boston University, Summer NSF Biotechnology Program, Boston MA July 30, 1993
- Hereditary Fructose Intolerance.* Center for Human Genetics, Boston University Medical School, Boston MA October 20, 1992
- Polymerase Chain Reaction in Diagnosis and Research.* Department of Chemistry, Boston University, Summer NSF Biotechnology Program, Boston MA July 17, 1992
- Hereditary Fructose Intolerance.* Biology Department, Boston University, March 30, 1992
- Chain Reaction in Diagnosis and Research.* Department of Chemistry, Boston University, Summer NSF Biotechnology Program, Boston MA July 26, 1991
- Characterizing Aldolase Mutations Responsible for Hereditary Fructose Intolerance.* Department of Pathology, Boston University School of Medicine, Boston MA January 25, 1991
- Molecular Genetics of Hereditary Fructose Intolerance.* Division of Pediatric Gastroenterology and Nutrition, Tufts University New England Medical Center, Boston MA Sept. 13, 1990
- Screening and Detection of Hereditary Fructose Intolerance Alleles in Newborn Blood Samples Using Polymerase Chain Reaction.* Vth International Congress - Inborn Errors of Metabolism, Asilomar, CA June 4, 1990
- Molecular Biology of Hereditary Fructose Intolerance.* Symposium - Topics in Molecular Medicine and Biotechnology Division of Molecular Pathology, Armed Forces Institute of Pathology, Walter Reed Army Medical Center, Washington D.C. April 20, 1990
- Recent Advances in Understanding Metabolic Disease.* Division of Pediatric Endocrinology and Metabolism, Rhode Island Hospital, Brown University, Providence RI March 30, 1990
- Molecular Genetics of HFI: Studies of Human Liver Aldolase B.* Biology Department, Rhode Island College, Providence RI March 28, 1990
- The Role of the Carboxyl Terminus of Aldolase in Catalytic Studies using Site-directed Mutagenesis.* Molecular Biophysics Program, Physics Department, Boston University, Boston MA October 5 1989
- Phenotype Variants of the Genetic Illness, Hereditary Fructose Intolerance.* Symposium - Fructose Bisphosphate Aldolases, University of Sherbrooke, Quebec, Canada June 8-10 1989
- Molecular Genetics of Aldolase B.* New England Regional Screening Program, State Laboratory Institute, Jamaica Plain, MA December 16, 1988
- Human Aldolase Genes; Screening for Hereditary Fructose Intolerance.* Harvard Medical School, Mass. General Hospital, Boston MA October 21, 1988
- A Missense Mutation is a Common Allele in Hereditary Fructose Intolerance.* Boston University Medical School, Center for Human Genetics, Boston MA March 17, 1988
- Structure and Function of the Aldolase Genes in Humans;*
 Chemistry Department, Texas Tech University, December 1985*
 Biology Department, Boston University, January 1986*
 Chemistry Department, Georgia Tech, January 1986
 Biochemistry Department, Medical School, Louisiana State University, Shreveport, January 1986
 Biology Department, Portland State University, January 1986*
 Pathology Department, Florida State University, February 1986
 Biochemistry Department, Medical School, Ohio State University, February 1986
 Chemistry Department, New York University, February 1986
 Biochemistry Department, Medical School, Kansas University, March 1986
 Biochemistry Department, Medical School, Louisiana State Univ., New Orleans, March 1986*

TOLAN, D. R.

DNA Sequence Determination of the Human Aldolase Genes using 7-deaza-dGTP. Department of Organic and Biological Chemistry, University of Ösnabrück, West Germany May 1986
Evolutionary Implications of the Human Aldolase A,B,C and Pseudo-Gene Chromosomal Locations. Department of Biochemistry, School of Medicine, University of Sherbrooke, Quebec, Canada September 1986
Ribosomal Sites of Interaction of Eukaryotic Initiation Factors. Friedrich Miescher-Institut, CIBA-GEIGY, Basel, Switzerland September 1979
