Brain Teasers

• A cabin, locked from the inside, is perched on the side of a mountain. It is forced open, and 30 people are found dead inside. They had plenty of food and water. They were not poisoned. They did not suffocate. There were no suicide notes. They did not kill each other. No one broke in and killed them. They were not poisoned. There were no weapons inside. They did not freeze to death. They did not die of old age or disease. How can you explain this? _________________

• Why can’t a man living in Winston-Salem, North Carolina be buried west of the Mississippi River? _____________________________

• If a doctor gives you three pills and directed you to take one every half hour until they were gone, how long would they last? _____________________________

• Consider the following word: boas. Can you re-arrange the letters in that word to arrive at another word that refers to something you use to keep clean? _________________

• A man rides into town on Friday. He stays three nights and leaves on Friday. How is that possible? _____________________________

• A man was driving his car at a high speed when it veered off the road, ran down an embankment, and landed in a fast-flowing river. As the car settled in the river, the man realized that both his arms were broken and that he could not release his seat belt to get out of the car. The car sank to the bottom of the river with him trapped inside. Two hours later, he was found alive by rescuers. How is this possible? _____________________________

• You have only one match and enter a room with a kerosene lamp, an oil heater, and a wood-burning stove. Which would you light first? _____________________________
