These are estimated expenses and are subject to change.
All students requesting an I-20 form must submit an original financial statement or bank letter. The document must:

* Be written in English
* Be dated at least 6 months from the start of the program
* Show liquid (cash) funds in a checking or saving account
* Show funds that match or exceed the estimated expenses of the program they are applying to
* Be signed by a bank official

*R_{oom/Meal}: Based on costs for Boston University housing; living in a shared room (two or more people) in a dormitory-style residence. Depending on the availability of particular residences, some students may be assigned to other accommodations which could cost more. All students living in Boston University housing must have a meal plan. Several plans are offered; the above is based on 15-19 full meals each week. Less expensive dining plans are available.

±ResNet Fee: A fee for Internet access is automatically charged to students living on-campus during the Fall and Spring semesters. If you will not be accessing the Internet from your dormitory, a waiver of this fee is available by contacting the Office of Student Accounts. This fee is not assessed in the summer.

**Medical Insurance**: Fall semester medical insurance rates cover the Fall, Spring, and Summer semesters.

***Personal Expenses Estimate**: This estimate includes costs for books, supplies, and other miscellaneous expenses. These are only estimates. Your actual expenses may differ.
