

Computers

Student Link

Students can access personal, financial, and academic information from the StudentLink. This website allows you to check your grades and will be used to register for classes each semester.

Visit the Link at www.bu.edu/studentlink.

Personal Computers

Personal computers are not required at Boston University or CGS, but we strongly recommend you have one. Information on purchasing a personal computer is available at: www.bu.edu/pcsc/.

Computers are extremely useful not only in typing and printing the several required drafts of papers and projects, but also in accessing useful online resources.

We strongly urge you to buy a personal printer. Inexpensive printers are available from a variety of vendors. **Please note:** there are no student printing facilities in the CGS building.

Computing Resources at CGS

Wireless networking is currently available in Gilbane Study Lounge located on the first floor and in the Marilyn & Jeffrey Katzenberg Center located on the third floor, and in the lobby.
