Research Study Assistant

Job Description

Looking for an applicant interested in the pursuit of a career in medicine, neuroscience, neuropsychology, and other related fields. A major component of the position will involve the collection and scanning of prepared brain tissue slides into a digital format. RA will gain exposure to neurodegenerative diseases and neuropsychology. RA will support the clinical research team at the Chronic Encephalopathy (CTE) Center. A two year commitment is preferred.

Required Skills

- Bachelor's degree and one to three years' work experience required.
- Must have access to transportation, as travel is required.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law. We are a VEVRAA Federal Contractor.

Job Location: Boston, Massachusetts, United States
