

Clinical Research Assistant
Full-Time Position – Immediate Opening
Boston University’s Alzheimer’s Disease and CTE Center
Boston University School of Medicine

The Boston University Alzheimer’s Disease and Chronic Traumatic Encephalopathy (BU AD & CTE) Center is seeking a highly motivated Clinical Research Assistant to join the [CTE Center’s](#) Clinical Team. This RA will support the clinical research team at Boston University and will interact with investigators and researchers at the Jamaica Plain VA. This research assistant will play an important role in the VA-BU-CLF brain bank as well as several other major projects. Candidates should have interest in the neurosciences and neurodegenerative diseases.

Responsibilities

- Data collection and data entry
- Clinical data analysis
- Daily administrative tasks to keep the study operating
- Coordination of brain donation cases on an as-needed basis, including procurement and transportation of tissue
- Communicate with families of brain donors to conduct clinical interviews and answer questions

Qualifications

- Bachelor’s degree in neuroscience, biology or a related field
- Interest in the field of Chronic Traumatic Encephalopathy and other neurodegenerative diseases
- Exceptional organizational skills and meticulous attention to detail
- Ability to work as an individual as well as in a team
- Experience in statistical analysis preferred
- Strong interpersonal and communication skills

2 year commitment

To Apply

Email a cover letter and resume to: Elizabeth Fay at erfay@bu.edu

References will be requested and an in-person interview will be scheduled for top applicants only.
