

## CALL FOR ABSTRACTS

### **Advances in Head and Neck Cancer: Immunotherapy and Precision Medicine Poster Session**

**Boston University, September 25, 2017**

Boston University and the Dana-Farber Cancer Institute will co-host a meeting titled “Advances in Head and Neck Cancer: Immunotherapy and Precision Medicine” at Boston University on September 25, 2017. The meeting will bring clinicians and researchers together to discuss the latest developments in head and neck cancer therapy and research, with particular focus on immunotherapy and precision medicine approaches.

Abstracts are now being accepted for consideration for presentation at the symposium Poster Session. We welcome abstracts from investigators in the field of head and neck cancer.

**Abstract Submission Deadline:** Monday, August 21, 2017, 17:00 Eastern Standard Time.

**Abstract Decision:** First authors can expect to receive notification via email by August 31, 2017.

**General Abstract Guidelines:** Please list the names, credentials and institutional affiliations of all authors. Abstracts must not exceed 250 words. Authors may serve as first authors on only one abstract, but may be co-authors on an unlimited number of abstract submissions.

**Abstract Submission:** Please submit your abstract via email to [OCRI@bu.edu](mailto:OCRI@bu.edu).

Please contact [OCRI@bu.edu](mailto:OCRI@bu.edu) with any questions.
