The Office of Disability Services (ODS) provides academic accommodations and services to students with **Medical and Mobility Impairments**. Students seeking accommodations must provide appropriate documentation of their disability so that ODS can determine the student’s eligibility for accommodations; and if the student is eligible, determine appropriate academic accommodations. The documentation must describe a disabling condition, which is defined by the presence of significant limitations in one or more major life activities. Submitting evidence of a diagnosis, or a prescription alone, is not sufficient to warrant academic accommodations.

To verify the disability and its severity, ODS requires the following current documentation from a physician or other medical specialist with experience and expertise in the area related to the student’s disability should make the diagnosis.

Documentation should include:

- **A current** clear statement of disability including **diagnosis**. Current documentation is dependent upon the student’s condition and the nature of the student’s request for accommodations. Documentation should also note the status of the individual’s impairment (static or progressive).
- Disabilities that are sporadic or change over time may require more frequent evaluations. Documentation that reflects the **current** impact on the student’s functioning should be submitted. **Present symptoms** that meet the criteria for the diagnosis must be present and noted.
- A narrative **clinical summary** of assessment procedures that were used to make the diagnosis, evaluation results, history of disability and list of recommended accommodations.
- A description of how current functional limitations will present in an academic environment.
- Suggested accommodations to address each limitation.
- The diagnostic report must include the **name, and title, and license number** of the evaluator.
- A complete Disability Verification Form (please do not write “see attached”)

Further assessment by an appropriate professional may be required if co-existing learning disabilities or other disabling conditions are indicated. All documentation must be submitted on the official letterhead of the professional describing the disability. The report should be dated and signed and include the name, title, and professional credentials of the evaluator, including information about license or certification. ODS will make the determination regarding whether accommodations are reasonable in the University environment.

Disability Verification Form – Medical/Mobility Impairments

This form is intended to assist your client in meeting the documentation requirements for requesting academic accommodations on the basis of a Medical or Mobility Impairment at Boston University. Please fill out all of the questions on the below form, even if the material has been included in your full evaluation and/or clinical summary. The documentation must describe a disabling condition, which is defined by the presence of significant limitations in one or more major life activities.

To ensure the provision of reasonable and appropriate accommodations, students requesting academic accommodations must provide current documentation of their disability. Current documentation is dependent upon the student’s condition and the nature of the student’s request for accommodations. It should also note the status of the individual’s impairment (static or progressive); a changing nature of functionality may need to be documented more frequently.

This documentation should provide information regarding the severity, duration and pervasiveness of symptoms, as well as the specifics describing how it has interfered with educational achievement. Please include a copy of all assessments used in making diagnosis.

All information will be kept confidential. Please feel free to contact ODS at (617)353-3658 with any questions.

Please note: All appropriate documentation must be received prior to formal review process commencing. Also, please be aware that provision of accommodations in high school, other non-BU academic institution or on any standardized test does not guarantee that the same or any accommodations will be awarded at Boston University.
