

GUIDO DANIEL SALVUCCI

Department of Earth and Environment
College of Arts and Sciences
675 Commonwealth Avenue
Boston University
Boston, MA 02215
gdsalvuc@bu.edu

Principal Fields of Interest:

Vadose zone hydrology: land surface water and energy balance processes; groundwater-vadose zone interactions; analytical descriptions of infiltration, drainage and evaporation processes.

Remote sensing: estimation of evapotranspiration and water budget at large scales;

Stochastic hydrology: spatial and temporal aggregation and disaggregation of hydrologic fields; measurement-model scale discrepancies; hypothesis testing in land-atmosphere interactions.

Hydroclimatology: coupled atmospheric water and energy balance processes

Education:

Ph.D., Department of Civil and Environmental Engineering (Hydrology). Massachusetts Institute of Technology, Cambridge, Massachusetts. May, 1994. Thesis Title: Hillslope and Climatic Controls on Hydrologic Fluxes. Thesis Advisor: Dara Entekhabi

M.S., Department of Civil and Environmental Engineering (Hydrology and Hydroclimatology). Massachusetts Institute of Technology, Cambridge, Massachusetts. 1992.

B.S., Department of Applied Science (Atmospheric Fluid Dynamics). New York University, New York, New York. 1989

B.E., Department of Civil Engineering (Water Resources and Hydrology). The Cooper Union for the Advancement of Arts and Science, New York, New York. 1989

Employment:

Professor, Department of Earth and Environment,
Boston University, Boston, Massachusetts, July, 2012 – present.

Professor, Joint Appointment in the Departments of Geography and Earth Science,
Boston University, Boston, Massachusetts, September, 2005 – July, 2012.

Associate Professor with Tenure, Joint Appointment in the Departments of Geography and Earth Science, Boston University, Boston, Massachusetts, September, 2000 – August, 2005.

Assistant Professor, Joint Appointment in the Departments of Geography and Earth Science,
Boston University, Boston, Massachusetts, September, 1994 – August, 2000

Awards and Honors:

James B. Macelwane Medal of the American Geophysical Union, 2003.

Fellow of the American Geophysical Union, 2003.

Editor's Award, Journal of Hydrometeorology, American Meteorological Society, 2005.

Dean's Teaching Recognition Award, College of Arts and Sciences, 2000.

Recipient of National Aeronautics and Space Administration New Investigator Program grant, 1996.

Visiting Appointments:

Visiting Scholar, Department of Civil and Environmental Engineering, Massachusetts Institute of Technology, Cambridge, Massachusetts. September 2000 – August 2001

Lecturer, Vadose Zone Hydrology: Issues at the Boundary Between Groundwater and Surface Water, Short Course, June, 1998, Institute of Hydraulics, University of Perugia, Italy.

Visiting Researcher, CSIRO Division of Water Resources, Canberra, ACT, AU, July-August, 1995.

Teaching Experience:

Water Resources and Environment, Department of Geography, College of Arts and Sciences, Boston University, Boston, Massachusetts.

Introduction to Hydrogeology and Aquatic Chemistry, Department of Earth Sciences, College of Arts and Sciences, Boston University, Boston, Massachusetts.

Models for Hydrologic Analysis, Department of Geography, College of Arts and Sciences, Boston University, Boston, Massachusetts.

Dynamic Landsurface Hydrology, Departments of Earth Sciences and Geography, College of Arts and Sciences, Boston University, Boston, Massachusetts.

Introduction to Quantitative Environmental Modeling, Department of Geography, College of Arts and Sciences, Boston University, Boston, Massachusetts.

Geodynamics of the Earth II: Fluids and Fluid Transport, Departments of Earth Sciences and Geography, College of Arts and Sciences, Boston University, Boston, Massachusetts.

Vadose Zone Hydrology: Issues at the Boundary Between Groundwater and Surface Water, Short Course, June 22 - June 27, 1998, Institute of Hydraulics, University of Perugia, Italy.

Academic Service:

Member, Vision Committee, Department of Earth and Environment, 2012.

Chair, Department of Earth Sciences, Boston University, College of Arts and Sciences, September 2005- August 2010.

Co-Chair, Certificate Ph.D. Program in Terrestrial Biogeosciences offered by the departments of Geography and Environment, Earth Sciences, and Biology, September 2009-present

Associate Chair, Department of Geography, Boston University, College of Arts and Sciences, September, 2003- August, 2005.

College Appointment, Promotion and Tenure Committee, Boston University, College of Arts and Sciences, September 2002- December 2002.

University Appointment, Promotion and Tenure Committee, Boston University, June 2004- May 2005.

Academic Policy Committee, Boston University, College of Arts and Sciences, September 1995- August 1997

Environmental Science Faculty Advisory Committee, Center for Energy and Environmental Studies, Boston University, Boston, Massachusetts, September 1994-present.

Various Committees (Searches, Curriculum, Library etc), Departments of Earth Sciences and Geography, Boston University, College of Arts and Sciences, September 1994-present

Professional Service:

Editorial:

Editor for *AMS's Journal of Hydrometeorology*, 1/1/2008-12/31/2010.

Associate Editor for *AMS's Journal of Hydrometeorology*, 12/31/2010-4/1/2012.

Associate Editor for *AGU's Water Resources Research*, 1998-2001.

Editorial Board for *Advances in Water Resources*, 2000-present

Advisory Panels and Committees:

Workshop Member, 'Community Modeling and Long-Term Predictions of the Regional-Scale Integrated Water Cycle, *Department of Energy*, September, 2012

Committee Member, ‘Committee on Strategic Advice on the U.S. Climate Change Science Program, *National Research Council*, 2006-2009.

Panelist, “Review of GEWEX Americas Prediction Project (GAPP) Science and Implementation Plan”, workshop held by the *National Research Council* Board of Atmospheric Sciences and Climate, March-June, 2005.

Panelist, “Groundwater Fluxes Across Interfaces”, workshop held by the *National Research Council* Committee on Hydrologic Sciences, Egg Harbor Wisconsin, 5/12/2002-5/15/2002.

Fellows Selection Committee of the Hydrology Section of the *American Geophysical Union*, 2004 – 2006

Editorial Search Committee for *Journal of Geophysical Research D* of the *American Geophysical Union*, 2004

Science Steering Group, NASA Water Cycle Initiative, July 2001-July 2002.

Surface Water Committee of the Hydrology Section of the *American Geophysical Union*, July 1994 - present

Committee on Hydrologic Science, Consortium of Universities for the Advancement of Hydrologic Science, Inc. (CUAHSI), 2002.

Working Group and chair of science subcommittee for the NSF initiated Consortium for Hydrologic Research, Jan-March 2001.

Review Panels:

Proposal Review Panel *National Oceanic and Atmospheric Administration, Climate Prediction Program for the Americas* (December 2009)

Proposal Review Panel *National Aeronautics and Space Administration, Terrestrial Hydrology Program* (September 2008)

Proposal Review Panel *National Science Foundation Earth Sciences Division, Hydrology Program* (Twice per year, 2003-2005)

Proposal Review Panel *National Aeronautics and Space Administration GEWEX panel* (1997)

Special Sessions Chaired:

Chair of special session: “Scaling in time and space, methodological approaches”, at the Catchment Scale Hydrologic Modeling and Data Assimilation Workshop, Princeton University, Princeton, NJ, October 26, 2004

Scientific Technical Committee and Session Chair for AGU Chapman Conference *State-of-the-Art in Hillslope Hydrology*, Sunriver Oregon, October 8-12, 2001

Co-Convener and Co-Chair of special session: Diagnosing and Modeling Rate-Limiting Processes in Soil Hydrology, at the Spring 2000 meeting of the *American Geophysical Union*

Co-Convener and Co-Chair of special session: Sources of variation of soil moisture, at the Spring 1998 meeting of the *American Geophysical Union*

Chair of special session: Coupled land and atmospheric processes, at the 13th Conference on Hydrology at the February 1997 annual meeting of the *American Meteorological Society*

Co-Convener and Co-Chair of special session: The role of unchanneled flows, soil moisture content, and rain variability in the formation of floods, at the Spring 1995 meeting of the *American Geophysical Union*

Manuscript Reviewer: *Water Resources Research, American Society of Civil Engineers Journal of Irrigation and Drainage Engineering, Geophysical Research Letters, Advances in Water Resources, Geology, Journal of Coastal Research, Agricultural and Forest Meteorology, United States Geological Survey Water Resources Division Manuscript Reviews, Hydrological Processes, Journal of Hydrometeorology, Journal of Geophysical Research Atmospheres, Journal of Hydrology, Groundwater.*

Proposal Reviewer: *National Science Foundation, National Aeronautics and Space Administration, and National Oceanic and Atmospheric Administration, U. S. Army Research Office*

Professional Accreditation:

Engineer in Training, New York State. 1989

Professional Society Affiliation:

American Geophysical Union

American Meteorological Society

Graduate Student Advisees (First Reader)

completed:

Michael R. Ravella, M.A., 1998.: Thesis Title: Field Observations of the Relation Between Near Surface Soil Moisture and the Similar Media Parameter Alpha. (Currently Consultant)

Etsuko Amano, M.A., 1997.: Thesis Title: Estimation of Interstorm Soil-Limited Evaporation over Bare and Sparsely Vegetated Surfaces Using Remote Sensing.

Thambirajah Saravanapavan, MA, 1999.: Thesis Title: Analysis of rate-limiting processes in soil evaporation with implications for soil resistance models. (Currently Consultant)

John B. Levine, Ph.D., 2002: Thesis Title: Coupled saturated-unsaturated zone modeling of hydrologic processes (Currently Consultant)

Hideki Kanamaru, Ph.D., 2002: Thesis Title: Diagnostic Study of Atmospheric Water and Energy Budgets from Observations and Atmospheric General Circulation Models. (Currently Climate Modeling Officer at United Nations Food and Agricultural Organization)

Vania Toninelli, Ph.D., 2003: (co-advised) Student at Polytechnic Institute of Milan:
Thesis Title: Parameter Estimation of Water Balance Models.

Jennifer Saleem, Ph.D., 2005: Thesis Title: Observational analyses of hydrologic scaling: The roles of heterogeneity and non-local interaction as inferred from soil moisture and precipitation data. (Currently Assistant Professor at East Carolina University, Department of Geography)

Mutlu Ozdogan, Ph.D., 2005: The effect of irrigation on the regional hydroclimatology of southern Turkey. (Currently Assistant Professor at University of Wisconsin, Department of Forest Ecology and Management)

Corey Pettijohn, Ph.D., 2008: Thesis Topic: Land-atmosphere evaporation feedback processes. (Currently Postdoctoral Research Associate at Oregon State University)

Jian Sun, Ph.D., 2011: Thesis Topic: Parameter Estimation of Coupled Water and Energy Balance Model Based on Stationary Constraints on Temperature and Moisture.

Sam Tuttle, MA, 2011: A Model for Estimating Evapotranspiration at the Watershed Scale

current:

Sam Tuttle, Ph.D.: Thesis Topic: Soil Moisture Remote Sensing
(expected completion of Ph.D., 8/31/15)

Angela Rigden, Ph.D.: Thesis Topic: Long-Term Trends in Evaporation
(expected completion of Ph.D., 8/31/15)

Dan Gianotti, Ph.D.: Thesis Topic: Precipitation Predictability (co-advised with B. Anderson)
(expected completion of Ph.D., 8/31/15)

Principal-Investigator Proposals:

Pending:

Salvucci, G.D, and B.T. Anderson, Development of conditional averaging techniques to estimate land surface parameters for climate models from satellite data, *National Aeronautics and Space Administration, Terrestrial Hydrology Program*, \$399,361

Funded:

Salvucci, G.D, A New Approach for Validating Satellite Estimates of Soil Moisture, *National Aeronautics and Space Administration, Terrestrial Hydrology Program*, 8/16/12-8/15/015, \$297,424

Salvucci, G.D (BU-PI) and D. Entekhabi (MIT-PI), Estimation of evaporation efficiency linking water and energy balance based on remotely sensed measurements, *National Aeronautics and Space Administration (NEWS program)*, 5/1/06-4/31/09, \$599,434 (BU portion \$ 269,285)

Salvucci, G.D., New scale appropriate diagnostics for evaluating land surface parameterizations and water balance using remotely sensed data, *National Aeronautics and Space Administration (GWEC)* 2/15/02-2/14/05, \$280,000.

Salvucci, G.D., C. Woodcock, M.A. Friedl, and B. Anderson, The effects of agricultural expansion on regional hydrology in Southeastern Turkey, *National Aeronautics and Space Administration (LCLUC)* 8/15/01-8/14/04, \$541,982.

Salvucci, G.D., Scale dependence in water balance sensitivity to soil moisture, *National Science Foundation, Division of Earth Sciences, Hydrologic Sciences Program*, 8/1/00-7/31/03, \$184,616, Sole-Principal Investigator

Salvucci, G.D., Direct estimation of the form and scale-dependence of soil moisture control on land surface water balance, *National Aeronautics and Space Administration Land Surface Hydrology Program*, 8/1/99-7/31/00, \$50,000, Sole-Principal Investigator

Salvucci, G.D., Thermal and hydrologic signatures of soil controls on evaporation: A combined water and energy balance approach with implications for remote sensing of evaporation, *National Aeronautics and Space Administration, Mission to Planet Earth*, 7/1/96-6/30/00, \$286,917, Sole-Principal Investigator

Salvucci, G.D., Integrated modeling of groundwater, unsaturated zone, and surface hydrologic processes over prairie topography, *National Science Foundation, Division of Earth Sciences, Hydrologic Sciences Program*, 8/1/97-7/31/99, \$51,412, Sole-Principal Investigator

Salvucci, G.D., Direct use of satellite remote sensing in the estimation of hydrologic transports, *National Aeronautics and Space Administration* 5/1/98-4/31/01, \$131,000, Boston University Principal Investigator, Project is Parallel Submission with D. Entekhabi, Principal Investigator and R.L. Bras, Co-Investigator, at Massachusetts Institute of Technology,

Funded Co-Investigator Proposals:

Anderson, B., and G.D. Salvucci, Inherent Predictability of Observed Seasonal Mean Precipitation Variations Over the Continental United States, , *National Science Foundation, Division of Atmospheric and Geospace Sciences, Climate and Large-scale Dynamics Program*, \$405,249, 9/1/2010-8/31/2013

Anderson, B., and G.D. Salvucci, Detection of historical and future precipitation variations and extremes over the continental United States, *Department of Energy*, \$484,944, 9/1/2011-8/31/2014

Phillips, N. , G.D. Salvucci and M.A. Friedl, Vegetation Control of Ecohydrologic Processes, *National Science Foundation, Division of Earth Sciences, Water Cycle Program*, 1/1/03-12/31/05, \$338,412.

Anderson, B., and G.D. Salvucci, Proposal to perform event-based studies of interannual variations in Summertime precipitation over the southwestern United States, *National Oceanic and Atmospheric Administration*, 1/1/03-12/31/05, \$259,047.

Moghaddam, M. (PI), S. Sorooshian, S. Wofsy, R. Cuenca. E. Rodriguez, D. Entekhabi, S. Saatchi, G. Salvucci, R. Yahya, and D. Moller, Dual low frequency radar for soil moisture under vegetation and at depth, Instrument Incubator Program, *National Aeronautics and Space Administration*, 9/1/01-8/31/04, \$4,015,000. (BU Subcontract is \$64,256)

Woodcock, C.E., F. El Baz, C. Cleveland, M. Friedl, S. Gopal, R. Kaufmann, J. Key, D. Dye, R. Myneni, G.D. Salvucci, and A. Strahler, Center for Excellence in Remote Sensing at Boston University, *National Aeronautics and Space Administration*, 1/1/98-12/31/98, \$380,000.

Proposals as Collaborator:

Kurtz, A, Silica sources and water flowpaths in a tropical watershed: a combined Ge/Si, oxygen isotope, and hydrometric study, *National Science Foundation, Division of Earth Sciences, Hydrologic Sciences Program*, 2006-2008, \$162,500

Journal Publications:
