

## CURRICULUM VITAE

Andrew C. Kurtz  
Department of Earth and Environment  
Boston University  
675 Commonwealth Ave., Boston, MA 02215  
Phone: (617) 358-2570 Fax: (617) 353-3290  
Email: kurtz@bu.edu

### Education

Ph.D., Geological Sciences	Cornell University, Ithaca, NY	2000
M.S., Geological Sciences	Cornell University, Ithaca, NY	1996
B.S., Geology ( <i>Summa Cum Laude</i> )	Ohio University, Athens, OH	1993

### Research Interests

Low-temperature geochemistry: Silicate weathering processes and rates, soil development, relationship between weathering and watershed hydrology, relationship between chemical weathering and physical erosion.

Evolution of Earth's biogeochemical cycles: Modeling the carbon cycle on geologic timescales, relative importance of marine and terrestrial organic carbon burial, role of fire, coupling between biogeochemical cycles of carbon, sulfur, phosphorus, and silicon.

Isotope and trace element geochemistry: Development and application of novel tracers (Ge/Si, REEs, radiogenic and stable isotopes) to problems in weathering, soil development, and paleoceanography.

### Employment

*Associate Professor*, Dept. of Earth and Environment, Boston University 7/12-present

*Associate Professor*, Dept. of Earth Sciences, Boston University 9/07-7/12

*Assistant Professor*, Dept. of Earth Sciences, Boston University 9/01-8/07

*Post-Doctoral Associate*, Penn State Astrobiology Research Center 10/99-8/01  
Research: *Evolution of Earth's carbon, sulfur, and silica cycles*  
Supervisors: Lee R. Kump, Michael A. Arthur

*Ph.D. Student*, Cornell University

*Graduate Fellow*, Biogeochemistry and Global Change 9/97-5/99

*Research Assistant* in Geological Sciences 9/95-9/97

Dissertation: *Germanium/Silicon and Trace Element Geochemistry  
of Silicate Weathering and Mineral Aerosol Deposition*

Advisor: Louis A. Derry

*M.S. Student, Cornell University*

*Teaching Assistant in Geological Sciences; Geology, Oceanography 9/93-5/95*

*Thesis: Geochemical Evolution and Uplift History of Miocene*

*Plutons near the El Teniente Copper Mine, Chile*

Advisor: Suzanne M. Kay

### Honors and Awards

Outstanding Student Research Award, Geological Society of America 1998

Elected to *Phi Beta Kappa*, Ohio University 1993

Outstanding Undergraduate Student Award, Geology, Ohio University 1993

Dean's Scholarship, Ohio University 1992-1993

### Professional Affiliations

Geological Society of America; American Geophysical Union; Geochemical Society

### Teaching Experience (Boston University)

Course Number and Title	Semester	Number of Students	Additional Information
ES 105 Environmental Earth Sciences	Fall 02	75	Supervised 2 TFs
	Spring 04	139	Supervised 3 TFs
	Spring 05	104	Supervised 3 TFs
	Spring 06	172	Supervised 3 TFs
	Spring 08	160	Supervised 3 TFs
	Spring 10	165	Supervised 3 TFs
	Summer 10	15	Supervised 1 TF
	Summer 11	13	Supervised 1 TF
ES 222 Mineralogy	Fall 01	20	Co-taught with Associate Provost Carol Simpson
ES 302 Earth History	Spring 12	20	
	Spring 14	19	
ES 351 Paleoclimatology/ Paleoceanography	Fall 02	19	
	Fall 03	26	
	Fall 04	20	
	Fall 05	28	
	Fall 06	37	
	Fall 07	24	
	Fall 08	25	
	Fall 09	13	
	Fall 10	26	
Fall 11	24		

Course Number and Title	Semester	Number of Students	Additional Information	
ES 351	Paleoclimatology/ Paleoceanography	Fall 12	22	
		Fall 13	17	
		Fall 14	18	
ES 571	Advanced Geochemistry	Spring 02	8	
ES 573	Analytical Methods in Geochemistry	Fall 01	7	Co-taught with Terry Plank Co-taught with Rick Murray
		Spring 05	13	
ES 574	Geochemical Modeling	Fall 03	13	Co-taught with Plank and Ethan Baxter Co-taught with Plank and Ethan Baxter
		Spring 06	9	
ES 576	Aquatic Geochem.	Spring 07	10	
		Spring 10	4	
		Spring 11	7	
		Spring 13	12	
ES 834	Advanced Topics: Geochemical Cycles	Spring 03	11	Co-taught with ES Chair Rick Murray

### Graduate Students

#### *Current:*

Ken Takagi, Ph.D. expected 2015, "Tracing the calcium biogeochemical cycle via stable isotope fractionation".

#### *Completed:*

Eric A. Moore, Ph.D. 2010, "Chemical Weathering and Organic Carbon Fluxes from the Fly River, Papua New Guinea".

Festo Lugolobi, Ph.D. 2010, "Chemical Weathering, Silica Sources, and Water Flowpaths in a Humid Tropical Watershed".

Allison M. Scribner, M.A., 2004, "Influence of Pedogenic Iron-Oxyhydroxides on the Ge/Si Weathering Tracer".

Tommy S. Moore, M.A., 2003, “Anaerobic Methane Oxidation and the Formation of Dolomite” (Co-advised with Rick Murray).

### **Undergraduate Student Theses**

#### ***Completed:***

Stephanie Kukolich, B.A. 2014, “Potential Effects of Radiogenic <sup>40</sup>Ca on the Calcium Isotopic Tracer at Hubbard Brook Experimental Forest.”

Michael Dyonisius, B.A., 2012, “Porewater Si cycling in New England Salt Marshes: reaction-advection-diffusion modeling and the Ge/Si tracer.”

Jessica Fitzsimmons, B.A., 2008, “Development of a Calcium Isotope Method in the Boston University Thermal Ionization Mass Spectrometry Facility.”

Scott Stachelhaus, B.A., 2006, “Ge/Si Fractionation during Diagenetic Formation of Chert.”

Aaron Burnett, B.A., 2003, “Historical Trends in Lead Pollution at Wells G and H Superfund Site, Woburn, MA, Revealed by LA-ICP-MS Analysis of Lead Isotopes Recorded in Tree Rings.”

### **Funded Research Proposals**

#### **A.C. Kurtz, Sole Principal Investigator**

Title: *Calcium isotopic response to disturbance at Hubbard Brook: acidification, deforestation, and recovery*  
Funding Agency: National Science Foundation – Division of Earth Sciences – Geobiology and Low-Temperature Geochemistry  
Duration: 9/13-8/15  
Award Amount: \$170,371

#### **A.C. Kurtz, Sole Principal Investigator**

Title: *Acid rain response and recovery in New England forests: Application of the novel calcium isotope tracer to the Hubbard Brook streamwater sample archive*  
Funding Agency: Massachusetts Water Resources Research Center  
Duration: 3/13-2/14  
Award Amount: \$5,000

#### **E. Baxter, M. Jackson, A.C. Kurtz, and R.W. Murray**

Title: *Facility Support: Phase Two of a NSF/Boston University partnership ensuring long-term technician support for the BU TIMS Facility*  
Funding Agency: National Science Foundation – Division of Earth Sciences – Instrumentation and Facilities

Duration: 6/10-5/12  
Award Amount: \$140,000

**A.C. Kurtz, Sole Principal Investigator**

Title: *Towards a chemical weathering rate chronometer: A U-series investigation of catena development in Kruger Park, South Africa*  
Funding Agency: National Science Foundation – Division of Earth Sciences – Geobiology and Low Temperature Geochemistry  
Duration: 9/1/08-8/30/10  
Award Amount: \$27,663

**A.C. Kurtz, Sole Principal Investigator**

Title: *A Source-to-Sink study of chemical weathering in the Fly River system*  
Funding Agency: National Science Foundation – Division of Ocean Sciences - Marine Geology and Geophysics Program – (MARGINS)  
Duration: 5/1/06-4/30/08  
Award Amount: \$174,853

**A.C. Kurtz, Sole Principal Investigator (with G.D. Salvucci, Senior Personnel)**

Title: *Silica sources and water flowpaths in a tropical watershed: a combined Ge/Si, oxygen isotope, and hydrometric study*  
Funding Agency: National Science Foundation – Division of Earth Sciences – Hydrologic Sciences Program  
Duration: 2/1/06-1/31/08  
Award Amount: \$161,315

**A.C. Kurtz, Sole Principal Investigator**

Title: *Testing the “Wildfire Hypothesis”: Fossil-fuel burning as the cause of dramatic global warming 55 million years ago*  
Funding Agency: American Chemical Society - Petroleum Research Fund  
Duration: 5/1/05-4/30/07  
Award Amount: \$35,000

**A.C. Kurtz, A.White**

Title: *Observatories for the Critical Zone Exploration Network: Rio Iacos and Luquillo Mountains, Puerto Rico*  
Funding Agency: National Science Foundation – Division of Earth Sciences – subcontract via The Pennsylvania State University  
Duration: 7/1/06-6/30/08  
Award Amount: \$18,046

**L.A. Derry, O.A. Chadwick, A.C. Kurtz**

Title: *Collaborative Research: Ge/Si as a tracer of terrestrial silica cycling*

Funding Agency: National Science Foundation – Division of Earth Sciences –  
Geology and Paleontology Program  
Duration: 3/1/03-2/28/06  
Award Amount: \$70,794 (BU portion)

E. Baxter, A.C. Kurtz, T. Plank and R.W. Murray

Title: *Acquisition and Development of a Thermal Ionization Mass Spectrometry Facility at Boston University.*  
Funding Agency: National Science Foundation – Division of Earth Sciences - Major Research Instrumentation  
Duration: 7/05-6/06  
Award Amount: \$749,814

T. Plank, A.C. Kurtz, R.W. Murray

Title: *Technician Support: Laser Ablation and Inductively Coupled Plasma Laboratories – Phase I*  
Funding Agency: National Science Foundation - Division of Earth Sciences – Instrumentation and Facilities Program  
Duration: 3/1/03-2/28/06  
Award Amount: \$210,000

T. Plank, A.C. Kurtz, R.W. Murray

Title: *Technician Support: Laser Ablation and Inductively Coupled Plasma Laboratories – Renewal*  
Funding Agency: National Science Foundation - Division of Earth Sciences – Instrumentation and Facilities Program  
Duration: 3/1/06-2/28/07  
Award Amount: \$160,000

**Professional Service**

*Journal Article Reviews* for Nature, Geology, Geochimica et Cosmochimica Acta, Chemical Geology, Earth and Planetary Science Letters, Biogeochemistry, Ecology, Palaios, Applied Geochemistry, JGR Earth Surface, American Journal of Science, Ecosystems

*Panelist* for NSF-EAR Geobiology and Low-Temperature Geochemistry program

*Proposal Reviews* for NSF programs in Geology and Paleontology, Chemical Oceanography, Marine Geology, Geomorphology and Land Use Dynamics, MARGINS, Low-Temperature Geochemistry and Biogeochemistry, Hydrology; UK National Research Council; American Chemical Society – Petroleum Research Fund, NIH Superfund Program, NASA

*Invited Participant*, “Integration and Synthesis of Margins Sediment Source to Sink Research” an NSF-MARGINS sponsored workshop in Gisborne, New Zealand, April 2009.

*Invited Participant*, “CZEN Data and Information Workshop”, an NSF-sponsored workshop to improve cyber-infrastructure for Critical Zone research. Penn State University, September, 2007.

*Invited Participant*, “Teleconnections Between Source and Sink in Sediment Dispersal Systems Theoretical and Experimental Institute” an NSF-MARGINS sponsored workshop in Northern California, September, 2006.

*Participant and Site Proposer*, “Frontiers in Exploration of the Critical Zone”, an NSF-sponsored workshop to develop a network of field sites for interdisciplinary research on the geochemistry and hydrology of soils. University of Delaware, October, 2005.

*Judge* for student posters in AGU Volcanology, Geochemistry, and Petrology, and Hydrology sections, 2004 Annual Meeting, San Francisco.

*Session chair* (poster) for AGU Volcanology, Geochemistry, and Petrology section “Applications of Metal Stable Isotopes in Low-Temperature Geochemistry and Biogeochemistry”, 2004 Annual Meeting, San Francisco.

*Organizer and session co-chair* (oral and poster) for American Geophysical Union hydrology section "Linkages Between Physical Erosion and Chemical Weathering", 2004 Annual Meeting, San Francisco.

*Invited participant*, Hawaiian Ecosystems Project workshop: "Geochemistry of Soil Weathering Processes", University of California, Santa Barbara, March, 2003.

*Invited Participant*, RiOMar Workshop, an NSF-sponsored workshop on "River-Dominated Ocean Margins" at Tulane University, November, 2001.

*Session chair* (oral) at Goldschmidt Conference, Cambridge, MA, August, 1999.

*Session chair* (oral) at Geological Society of America annual meeting, Toronto, October 1998.

## **University Service**

*Associate Chairman and Director of Graduate Studies – Department of Earth and Environment* (Fall 2012 – Summer 2013)

*Associate Chairman – Department of Earth Sciences* (2007-2008, 2009-2011)

*Director of Graduate Studies – Department of Earth Sciences* (Fall 2006-Summer 2010) Responsible for overseeing progress of ~25 M.S. and Ph.D. students, allocating Teaching Fellowships, running graduate student seminar series.

*Tenure and Promotion Working Group* – (Spring 2008) Served on a subcommittee of Boston University Faculty Council Committee on Faculty Policies with several BU faculty, CAS Dean Sapiro, BU Provost Campbell, to critically evaluate BU's tenure and promotion process, make recommendations for improvement.

*Tectonics Faculty Search Committee* (Fall 2013-Spring 2014)

*Terrestrial Hydrology Faculty Search Committee* (Spring 2009) Department committee to write a job advertisement, evaluate applications, and interview candidates, and ultimately hire in field of "Terrestrial Hydrology".

*Organic Carbon Dynamics Faculty Search Committee* (Fall 2006 – Spring 2008) Department committee to write a job advertisement, evaluate applications, and interview candidates, and ultimately hire in field of "Organic Carbon Dynamics".

*College of Arts and Sciences Natural Science Curriculum Committee* (2003-2006) Committee evaluates and makes recommendations regarding new and revised courses in natural sciences.

*Member of Boston University Environmental Science Curriculum Committee* (Spring 2005-present) Inter-departmental committee provides oversight and guidance regarding the curriculum and related academic dimensions of the Environmental Science program.

*Surface Processes Faculty Search Committee* (Fall 2003 – Spring 2006) Department committee to write a job advertisement, evaluate applications, and interview candidates, and ultimately hire in field of "Earth Surface Processes".

*Judge, Science and Technology Day* (March 2003, 2004, 2005, 2006) Faculty judge for student presentations at College-wide Science and Technology Day.

*Coordinator, Earth Sciences Department Seminar Series* (2002-2003 and 2003-2004 academic years) Responsible for organizing and inviting scientists from other institutions to lecture to department on current research. Approximately 22 lectures/year.

*Earth Sciences Graduate Entrance Committee* (Fall '02-present) Departmental committee to evaluate incoming ES graduate students and make recommendations regarding future coursework.

*Graduate thesis committees* Served as committee member for >20 Boston University Earth Sciences graduate students (M.A. and Ph.D.)

**Invited Lectures and Presentations** (short titles)

MIT, Earth and Atmospheric Sciences	10/11	Silica cycle and Ge/Si
Chapman Conference	1/11	Fly River Geochemistry
Harvard University, Earth Sciences	11/10	Fly River Weathering
Boston University, Terrestrial Biogeo	10/10	Fly River Weathering
American Geophysical Union, San Fran.	12/09	Ge/Si and Hydrology
Goldschmidt Conference, Davos	6/09	Fly River Geochemistry
Woods Hole Oceanographic Institution	7/08	Ge/Si and Hydrology
University of New Hampshire	11/07	Ge/Si and Hydrology
Woods Hole Oceanographic Institution	10/06	Fires and the PETM
Yale University, Geology Dept.	3/06	Fires and the PETM
Earth Systems Processes, Calgary, AB	8/05	South Africa soils
Goldschmidt Conference, Moscow, ID	5/05	Puerto Rico weathering
Geological Society of London	12/02	Paleocene carbon cycle
Boston University, Geography Dept.	11/02	Dust in Hawaiian soils
GES-6, Honolulu, HI, May, 2002	5/02	Dust in Hawaiian soils
Syracuse University, Spring, 2002	3/02	Dust in Hawaiian Soils
University of Pittsburgh, Spring, 2001	2/01	Ge/Si as a weathering tracer
Boston University, Earth Sciences	1/01	Ge/Si as a weathering tracer
Boston University, Earth Sciences	1/01	Paleocene carbon cycle
Penn State University, Geosciences	11/99	Ge/Si as a weathering tracer

**Other Significant Accomplishments**

*Featured Scientist in Harvard-Smithsonian Educational Video Project:* I served as a scientific consultant and was interviewed on air for a series of earth science educational videos produced by Harvard Smithsonian Center for Astrophysics. Filmmakers from Harvard-Smithsonian interviewed me on campus in February, 2003, and on location in Hawaii during my summer 2003 field season. Programs were shown on the Annenberg/CPB network beginning March, 2005. Series title is: *Essential Science for Teachers: Earth and Space Science*. I am featured in *Session 1. Earth's Solid Membrane: Soil*.

*International research recognition:* Paleooceanography paper on the Early Cenozoic carbon cycle (Kurtz et al., 2003) was profiled in a three page *News and Views* article in *Nature* (Weissert and Bernasconi, *Nature* v. 428, p.130-132). The paper was also cited in a subsequent *News and Views* article (Dickens, *Nature* v. 429, p. 513-515), and a *Perspectives* article in *Science* (Schrag and Alley, *Science* v. 306, p 821-822).

**Field Research**

Shipboard (*R/V Tahua Chief*) and shore-based study of solute and sediment fluxes in Fly River system, Papua New Guinea

Installation of hydrometric equipment (lysimeters, piezometers, tensiometers) and water sampling for geochemical analysis, Luquillo, PR (March and November, 2006)

Characterization of catena sequences, soil and geologic sampling, Kruger National Park, South Africa. (April, 2005)

Soil, sediment, water sampling at Luquillo, Puerto Rico. (2003, 2004)

Soil and stream water sampling on Hawaiian Islands (Hawaii, Maui, Kauai). (1997, 1998, 1999, 2001, 2002, 2003)

Field calibration of ice core melt-layer paleothermometer, snow and ice sampling, Siple Dome, Antarctica. (2000)

Collection of atmospheric aerosols, *R/V Weatherbird II*, Sargasso Sea. (August, 1998)

Geologic sampling in and around El Teniente copper mine, Chile. (March, 1995)

Geologic mapping in western Montana, SIU summer field geology course. (1992)

### **Geochemical Laboratory Research**

ICP-MS (Cornell U., Penn State U., Boston U.; VG Plasmaquad II+; Finnigan ELEMENT I and II, VG PQ ExCell); Developed hydride generation systems for determination of germanium by isotope-dilution; Routine trace element analysis of rocks, soils, and waters.

TIMS (Cornell U., VG Sector 54, Boston U. TRITON); Sr, Nd, Pb, Ca isotopic analysis of rocks and soils, and waters.

ICP-AES; (Boston U., JY Ultima-C) Routine analysis of major and trace elements of rocks, soils, and natural waters.

INAA (Cornell TRIGA facility); Trace element analysis of rocks.

Electron Microprobe (Cornell U., JEOL 733 Superprobe); Major element analysis of minerals in thin section; rock major elements on fused powders.

X-ray diffraction (Penn State U., Boston U.) Identification of crystalline phases in soils and sediments.
