The MEng curriculum requires completion of 32 graduate-level credits, with grades of C or higher and a cumulative GPA >= 3.0, while satisfying a specialization requirement and a practicum requirement. Graduate electives may include College of Engineering courses, School of Management courses (e.g., leadership, entrepreneurship, project management), and College of Arts and Sciences courses in technical areas (e.g., computer science, mathematics, physics, biology).

The specialization requirement is met by taking four\(^1\) structured graduate courses from a single specialization area (see next page for listing).

The practicum requirement is met by either: a) obtaining at least 4 credits of Directed Team Project (ENG EC952), or b) taking two 4-credit courses with significant practicum components as certified by the ECE Graduate Committee (see next page for listing).
