PROGRAM REQUIREMENTS

1. Total of 32 credits (8 courses) at the graduate level (500-level and above) with grades of C or better.
2. A degree GPA >= 3.0 for the 32 credits and a cumulative GPA of >= 3.0 for all credits taken while enrolled in the program.
3. **CE CORE** – 20 credits from the total 32 credits must be selected from among the courses listed in the CE Tracks while ensuring that 12 of those 20 credits are from a single CE Track (see CE Track Lists).

   Please list your 12 credits (3 courses) from a single CE Track:
   - __________________________________________________
   - __________________________________________________
   - __________________________________________________

   Please list your additional two CE Core courses (selected from any CE Track):
   - __________________________________________________
   - __________________________________________________

4. **GRADUATE ELECTIVES** – the remaining 12 credits outside of the CE Core. Graduate electives may include College of Engineering courses, School of Management courses (e.g., leadership, entrepreneurship, project management), and College of Arts and Sciences courses in technical areas (e.g., computer science, mathematics, physics, biology).

   Please list your graduate electives:
   - __________________________________________________
   - __________________________________________________
   - __________________________________________________

5. **PRACTICUM** – (select one):
   a. □ Directed Group Project (EC952, maximum 6 credits. These credits are also counted as technical elective credits.)
   b. □ Two practicum-certified ECE courses (8 credits)
      If this option is selected, please specify your two practicum-certified ECE courses (these courses may also be used in CE Core or as technical electives. Please see back of this sheet for a list of practicum-certified ECE courses.)
