The Student Elections Commission received the following complaint from John Bavlsik at 6:54 PM on April 12, 2011, assigned reference number 2:

A video posted on the “Rhettvolution” YouTube channel shows campaigning using physical media taking place before the start of campaign period; this action is prohibited under EC 3.4.01. The video is found at the following URL:

After consideration of the complaint, the SEC has issued the following ruling:

The SEC finds with a 6-0 vote that a violation of Elections Code section 3.4.01 has taken place, and therefore must charge the “Rhettvolution” campaign 200 violation points. The video states that the event in question took place before the beginning of the campaign period, and the event clearly uses physical media to promote the campaign.
