

Title: GUI Architect Engineer

Location: North of Boston, MA

Job Order#: 294708BK

Key Words: GUI Architect

Job Description:

Our client company has an exciting opening for an Architect Engineer to lead the GUI design of their Windows-based product starting at the concept stage. Our client company is an early stage, high energy start-up seeking the very best innovative software engineers.

Description of Duties

- Specify GUI Architecture fitting the overall architecture developed by our CTO.
- Lead a small team of “A” players implementing your architecture.
- Lead the documentation for development, including schedules, Architectural Specification, Functional Specification, and Design Specification.
- Work with the other leaders to create a seamless, cutting edge product.
- Develop proof-of-concept or prototype software to reduce project risk.
- Lead analysis of resulting prototype and product performance.

Profile of Candidate

- BSCS/BSEE minimum, MSCS preferred, other degrees with significant experience may be considered.
- 10+ years GUI technical experience minimum, 15+ years preferred.
- 2+ years in a lead or Architectural role.
- GUI designs for enterprise products preferred.
- Significant C++ based implementations required, Java, C#, XML, VB are a plus.
- Solid Microsoft Visual studio skills are required.
- Experience creating Enterprise Windows applications and architectures.
- .NET experience required. .NET 3.0 experience is a plus.
- ASP.NET, MFC, DCOM, COM+ experience are a plus.
- UML, BOOCH designs, design patterns SOA experience are a plus.
- .NET Framework classes experience preferred.
- Experience with the Model-View-Controller pattern is a strong plus.
- Experience creating network based software products.
- Ability to write architectural plans, functional specifications and design documents.
- Design for test, maintainability and scalability.
- Proficiency leveraging patterns and frameworks to create best in class solutions.

- Experience bringing products from concept through multiple releases.
- Participate in peer reviews to ensure a successful product.

Resumes should be e-mailed as a Word attachment to bk@ndt.com
