

QUALITY MANAGER

Amphenol Backplane Systems, located in Nashua, New Hampshire is the recognized worldwide leader in custom backplane assemblies using high-density, ruggedized, board to backplane interconnects. We have over 30 years of experience in the military and aerospace market and our commitment to the industry is exemplified in everything that we do. We are conducting a search for a Quality Manager. This key management position reports directly to the General Manager of Amphenol Backplane Systems.

DUTIES AND RESPONSIBILITIES

- Manage product and process quality to meet customer satisfaction metrics through formal continuous improvement program.
- Responsible for compliance with ISO9001:2000 and future registration to AS9100.
- Manage customer quality requirements through documentation review, process capability/control, and detailed inspection plans.
- Responsible for quality planning and supervision of quality personnel at multiple locations to site-specific quality metrics.
- Responsible for presentation of business unit level quality metrics to corporate management.
- Responsible for managing all quality related aspects of customer and supplier relationships, including management of both customer and supplier corrective action processes.
- Supervise process engineering and inspection groups and processes.
- Owner of processes for review and disposition of non-conforming material.

POSITION SPECIFICATIONS

- 5+ years of experience in manufacturing operations (Military/Aerospace experience preferred).
- Quality management experience, multi-site experience preferred, with strong supervisory and leadership skills.
- Knowledge and experience with ISO9001 (AS9100 preferred), including implementation and compliance mgmt.
- Working knowledge and proven leadership in continuous improvement activities and formal programs (ex: 6-sigma, Lean mfg).
- Electronic assembly, PCB fabrication and assembly, and inspection process familiarity in a low-volume high-mix Military/Aerospace environment.
- Customer and supplier communication and presentations.
- Knowledge of relevant military and industry standards.
- BS engineering. MS or MBA desirable.
- Travel required, primarily between Sidney, NY, Nogales, Mexico, and Nashua, NH (position in Nashua, NH)
