Subject: Genzyme Job Description Translator

Good afternoon. Genzyme has contacted me regarding this opportunity for bi-lingual or multi-lingual students. All of the info is enclosed. If a student is looking to make \$50 and also interested in Genzyme as an employer this might be a good start. Melissa, the contact at Genzyme, used to work in the Career Center within the School of Management years ago.

I appreciate you blasting out to students that might speak one of the languages enclosed or if you have any ideas. I know with Finals this won't be a top priority with students. The job will still be available after the Winter Break.

Thanks for your help.

Jim
