Please note, this is a model of completion for the BME undergraduate curriculum. If this model is followed, all necessary prerequisites and co-requisites should be fulfilled. However, if you choose to deviate from this model, you will need to speak with your advisor to ensure you are taking everything you need in the correct order. Students majoring in Biomedical Engineering are required to complete a minimum of 136 credits as detailed on the Program Planning Sheet on the other side of this form.
REQUIREMENTS

Design Req.: 4 credits from the design Elective list must be taken to fulfill a professional, engineering, or biomedical elective

Pre-Med Majors: Students should consult with the BU Pre-Professional Advising Office and their ENG Faculty Advisors

General Education courses: For a list of specific courses that satisfy the Social Science, Humanities, and the General Education Elective, please go to the College of Engineering Undergraduate Requirements website at: http://www.bu.edu/eng/current-students/ugrad/requirements/.

CONTINUOUS AND FIELDS IN BIOMEDICAL SYSTEMS ELECTIVE (4 credits required)

ENG BE 419 Principles of Continuum Mechanics and Transport
ENG BE 420 Introduction to Solid Biomechanics
ENG BE 435 Transport Phenomena in Living Systems
ENG BE 436 Fundamentals of Fluid Mechanics

PROFESSIONAL ELECTIVES (8 credits required)

All ENG BE, EC, EK, and ME 300, 400, and 500 level courses are suitable as a professional elective

[Exceptions due to overlap of material: * BE 500, EC 381, EC 402, EK 500, ME 308, ME 403, ME 404, ME 501]*

CAS CH 203, CAS CH 204 and all CAS CH 300, 400 and 500 level courses (except: CAS CH 391, 392, 401, 402, 491, 492).

All CAS PY 300, 400, and 500 level courses (except PY 371, 401, 402, 482, 491, 492).

All CAS MA 300, 400, and 500 level courses (except CAS MA 381, 401, 402).

CAS BI 206, CAS BI 216 and all CAS BI 300, 400 and 500 level courses (except BI 315, 371, 391, 392).

ENG BF 527 Applications in Bioinformatics
ENG BE 533 Introduction to Electronics
ENG BE 534 Analog Electronics
ENG EC 580 Modern Active Circuit Design
ENG EC 580 Modern Active Circuit Design
ENG EC 455 Electromagnetic Systems I

ENG EC 456 Electromagnetic Systems II
ENG EC 417 Physics Semiconductor Devices
ENG EC 505 Stochastic Processes
ENG EC 481 Nanomaterials & Nanotechnology
ENG EC 311 Intro to Logic Design
ENG EC 401 Analog Electronics
ENG EC 401 Analog Electronics
ENG EC 500 Mechanical Vibrations

Design Req.: 4 credits from the design Elective list must be taken to fulfill a professional, engineering, or biomedical elective

[Exceptions due to overlap of material: * BE 500, EC 381, EC 402, EK 500, ME 308, ME 403, ME 404, ME 501]*

CAS CH 203, CAS CH 204 and all CAS CH 300, 400 and 500 level courses (except: CAS CH 391, 392, 401, 402, 491, 492).

Additionally, any Biomedical Elective (below) that has not been used to satisfy the BME Elective requirement (except BF 527) may be used as an Engineering Elective.

BIOMEDICAL ENGINEERING ELECTIVES (12 credits required)

All ENG BE 400 and 500 level courses (except BE 500); BE 700 level courses may be petitioned.

ENG EC 410 Introduction to Electronics,  ENG BF 527 Application in Bioinformatics,

Fulfills Professional Elective: ENG ME 404, ENG BE 402, ENG EC 402

ENG EC 359 – CAD/ Machine Components (2 cr)
ENG EC 360 – Product Design

Fulfills Fields Elective: ENG ME 407** – Computer-Aided Design & Manufacture

ENG BE 435 – Transport Phenomena

DEGREE ENHANCEMENTS

CONCENTRATIONS: Students may choose to add a Concentration in Energy Technologies, Nanotechnology or Technology Innovation. Students completing a Minor in Mechanical Engineering may choose to add a concentration in Aerospace Engineering. A concentration requires 4 courses which satisfy courses within the major. Hence, a concentration can usually be completed without additional coursework. More information on concentrations and the specific requirements for each can be found at http://www.bu.edu/eng/academics/programs/concentrations/. Students may also pursue minors in other Colleges at Boston University. For more information, please contact the College of the minor.

MINORS: Students may choose to add a minor in any one of the other degree programs or divisions (Materials Science & Engineering or Systems Engineering) within the College of Engineering A minor consists of 5 courses, 2 of which may also be used to satisfy requirements for the major. Completing a Minor will add a minimum of 12 credits to the total credits for the degree. More information on minors and the specific requirements for each can at http://www.bu.edu/eng/academics/programs/minors/.

DOUBLE MAJORS: Students may earn two engineering BS degrees. Double majors require a minimum of 168 credits and students must fulfill the requirements for each of the degree programs. See http://www.bu.edu/eng/academics/special-programs/ for more details.

OTHER WAYS TO ENHANCE YOUR DEGREE

Students have several additional options available to them including study abroad, research, and co-op/internship opportunities. For more information on these programs, please visit the College of Engineering Undergraduate website: http://www.bu.edu/eng/academics/.

Notes: For the following 10 sets of courses, only 1 course can be taken for credit in each set due to the overlap of material:

(1) ENG ME 305, ENG BE 420
(2) ENG ME 404, ENG BE 402, ENG EC 402
(3) ENG ME 303, ENG BE 436
(4) ENG ME 441, ENG ME 515
(5) ENG ME 501, ENG EC 501
(6) ENG ME 501, ENG EC 501
(7) ENG ME 501, ENG EC 501
(8) ENG ME 501, ENG EC 501
(9) ENG ME 501, ENG EC 501
(10) ENG ME 501, ENG EC 501
