ALCHEMIST GARDEN COMPUTER PROGRAMMING PEER TO PEER LEARNING PLATFORM

Alchemist Garden is an interactive and educational application that will teach players about Biomimicry and the Genius of Nature.

The focus will be to reach young girls (ages 12-16) to introduce computer programming while tying this together with new modes of teaching programming that gets them outdoors. Interns will develop a peer-peer learning curriculum by working with young girls in Lebanon, Costa Rica, and South Africa.
