

FACULTY COUNCIL VOTE:

*Please vote Yes (if you agree) or No (if you disagree) with this statement:*

The Boston University Faculty Council endorses the recommendations of the Climate Action Task Force for Boston University's Climate Action Plan.

We urge the Board of Trustees to follow the recommendation of the Task Force that "the University adopt the 'BU Bold' scenario as its target and seek to reduce its Scope 1 and 2 emissions to become carbon neutral by 2040, a decade earlier than the City of Boston." BU Bold can make BU a climate leader and motivate students, staff and faculty to push the boundaries of sustainability through practice, learning and research.
