

## Action Plan for Implementation of New ANC.

1. Discuss new ANC model with the staff and summary the outcomes (mathernal - fetal morbidity) and make the staff members to approve the WHO new ANC model trial and encourage them to implement it to our department.
2. Training personal about the information of implementation of new ANC model (including workshops of EBM and WHO new ANC model for all personals in the department)
3. Start to implementation of new ANC
4. Follow up the outcomes
