Course Description:
The curriculum developed by United States Figure Skating and United States Hockey is implemented in these skating classes. Students will be taught progressive skills in order from beginner to advanced movements. Students will be taught the balance point on their skate and how to manipulate the blade by using the correct edge. Student will participate in drills which will develop their skill proficiency. There are 14 levels of skills related to this class. All skills are taught in progression from the curriculum sheet. Once skills are mastered, the students will advance to the next level.

Typically there are 2 classes taking place at the same time. I will evaluate your skill level the first few classes and break students into groups. One group will have their lesson in the first half of class and the other group will have it in the second half of class. Lessons are usually 25 minutes to a half hour long. Each group will have 25 minutes to practice while not in lesson. If class size is large, I may have an assistant teaching with me. My assistants are members of the Boston University’s nationally ranked skating teams.

It is my hope to provide you with technical information with a positive approach in a relaxed environment. STRESS FREE! Let's have some fun.
