

# BUSPH Summer 2013 Preview!

The BUSPH summer semesters are a great way for students to complete degree requirements, concentration requirements, core courses, and to branch out into other areas of interest. Summer is also an excellent opportunity to complete the MPH practicum, and there are a range of registration options available for students (0, 1, 2, 3, or 4 credits).

MPH degree candidates are not required to register for courses during the summer. MS and Doctoral students in thesis or dissertation continuing study are also not required to register for continuing study at SPH in the summer, unless they are international students who plan to graduate in September.

*What is available?*

- **Core courses:**
  - Biostatistics (BS704, Summer II)
  - Environmental Health (EH717, Summer I)
  - Epidemiology (EP713 Summer II)
  - Health Law, Bioethics & Human Rights (LW719 Summer-long)
  - Health Policy & Management (PM702 Summer-long)
- **Required courses:** for the MS in Health Services Research and the DrPH program
- **Required MPH concentration courses:** BS723, BS805, SB805
- **Intriguing electives:** some offered only in the summer semesters, such as LW709: *“Healthcare Rationing: Medicine, Markets and Morals”* (Summer II)
- **Flexible scheduling:** intensive classes, summer long classes, and everything in-between

For the full summer schedule, go to: [www.bu.edu/studentlink](http://www.bu.edu/studentlink).

Registration starts at 7:00 AM on Thursday, February 28.
