

Organelles of the Cell

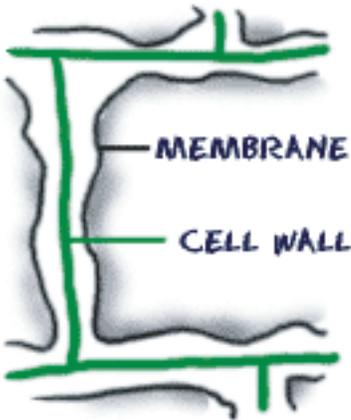

Plant Cells Only

1. Plant Cell

Eukaryotic cell with a cell wall,
chloroplasts, and 1 large vacuole

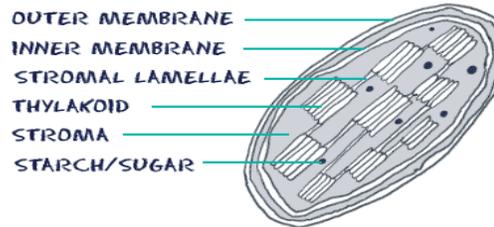

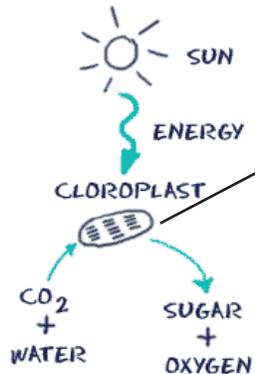

2. Cell Wall

Fence

Supports and protects plant cells

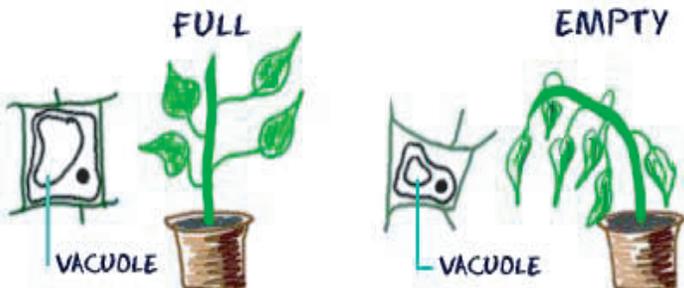

3. Chloroplast

Solar panels

Contains chlorophyll where sunlight
is turned into energy for plant cells

4. Vacuole

Storage tanks

Stores water, food, and waste

Plant cells have 1 large

Animal cells have lots of small
