## PETITION FOR STUDY ABROAD IN THE SOPHOMORE YEAR

Kilachand Honors College students are permitted to study abroad during one semester in the junior year. However, there are specific study abroad programs for students following pre-health tracks that can only accommodate participants in the sophomore year. These programs, the pre-health focused "Especially for Sophomores" programs, offer students courses that ensure that they remain on track with the requirements of the pre-health curriculum.

If you are a Kilachand Honors College student following the pre-health curriculum and are interested in participating in the programs below, you are eligible to complete this petition.

Dresden Science Program

Grenoble Science Program

Madrid Science Program

### Curriculum:

Typically, Kilachand students take KHC HC 301 and KHC HC 302 in sequence during the sophomore year and KHC HC 401 during either semester of the junior year. Approval of this petition will require a student to adjust sequence of the Kilachand curriculum as follows:

Sophomore year:	Junior Year:
Fall Study Abroad	Fall KHC HC 301
Spring KHC HC 302	Spring KHC HC 401

Students will not be permitted to study abroad in the spring of the sophomore year because they would be unable to complete the KHC HC 302 requirement, as KHC HC 302 is offered only during the spring semester and must be taken before KHC HC 401.
