

Morphology

Introduction to the Structures and Shapes of Words

This course covers...

- **How to dissect the internal structure of words in languages from all over the world.**
- **What the structure and shapes of words can teach us about how language as a whole fits together**
- **How the small-est mean-ing-ful piece-s of words combine to create complex meanings.**

Instructor: Neil Myler

(myler@bu.edu)

Prerequisite: CAS LX 250
Introduction to Linguistics
