

Fall 2017 MWF 10:10–11

Instructor: Charles Chang

Prerequisite: CAS LX 250
(Introduction to Linguistics)

Why do adults have more difficulty learning a language than children?

Why do speakers of the same first language differ in learning the same second language?

This course examines diverse theoretical perspectives on second language acquisition & multiple factors related to outcomes, such as:

- universal factors
- demographic factors
- experiential factors
- cognitive factors
- social/affective factors
- environmental factors
