Office Hours: Tuesday 3:00-4:30, Friday 1:30-3, or by appointment

Course Information:

Prerequisites

LX250: Introduction to Linguistics, or equivalent.

Texts

Note: Make sure you get the correct edition of Ladefoged! Previous editions, enticingly affordable though they be, are quite different in many respects.

• The Ladefoged & Johnson textbook is available at the Barnes and Noble bookstore at Boston University.

Course Requirements:

- Regular attendance and class participation
- Weekly problem sets and/or transcription exercises (35% of grade)
- Midterm exam – October 22 (15% of grade)
- Phonetic fieldwork project (25% of grade)
- Final exam – Wednesday, December 17, 9:00-11:00 AM (25% of grade)

Homework

- Weekly homework assignments are due at the beginning of class on the day they are due. Late homework (without prior excuse) will not be accepted. Your lowest homework grade will be dropped.
- You may, if you wish, collaborate with your fellow students on homework assignments. You must, however, state CLEARLY on each assignment the identities of your collaborators, and you must each write up your homeworks individually.

A Reminder:

Boston University Academic Conduct Code:

It is expected that you are familiar with the provisions of the Boston University Academic Conduct Code, available to you online at:

http://www.bu.edu/academics/policies/academic-conduct-code/

For graduate students, the GRS Academic Conduct Code:

http://www.bu.edu/cas/students/graduate/forms-policies-procedures/academic-discipline-procedures/

Cases of suspected academic misconduct will be referred to the Dean's office.

Final Project

- For our final project, you will take on the role of linguistic field worker. Working with a native speaker of a language with which you have no previous experience, and without consulting existing sources, you will create an original description of the sound pattern of the language you have chosen. Initial proposals for projects due in class October 10. An early start is highly recommended.

- Your consultant must be a living, intact, fluent speaker of the language in question.

- Your consultant should use the language in question on a regular basis.

- Please do not consult ANY reference materials (published grammars, dictionaries, articles, online descriptions, or what have you) regarding your language. Doing so defeats the purpose of the assignment, and will most likely be detected and frowned upon severely by your instructor.
• A note on using linguists as consultants: you should always seek out your consultant's intuitions concerning the structure of his or her language ("are these two sounds the same or different?"), but if your consultant should happen to be a linguist (or otherwise in-the-know about grammar), please explain to him or her the nature of this assignment and ask that he or she refrain from simply telling you "the way it really is".

• This project will be discussed in detail as the semester progresses. An archive of successful projects from previous years is available for your perusal upon request.
