Tips: Selecting Search Filters

- Selecting too many filters may yield too few results to find what you're looking for. It's best to initially select fewer filters, then add more as needed.
- Some areas provide a drop-down menu and/or an Only Favorites button to narrow filter choices.
- Other areas (such as Capacity when searching for Locations) require you to enter values.

4. Add other filters or close the display.

Close the filter display, and repeat to add more filters from other areas.

5. Run the search.

Use the **Search** button or your Enter or Return key to view your search results.
