THE CLINICAL RESEARCH UNDERGRADUATE CERTIFICATE AT BOSTON UNIVERSITY

Home to the nation’s #1 biopharma cluster (Genetic Engineering & Biotechnology News), Massachusetts offers an abundance of rewarding careers in getting medical products to market. Gain entry to the industry or improve your skills with the Certificate in Clinical Research from Boston University’s Metropolitan College.

This 16-credit certificate program provides specialized training for health professionals, enabling them to contribute to the design, conduct, and analysis of clinical trials. Credits can be applied to the Bachelor of Science (BS) in Biomedical Laboratory & Clinical Sciences offered through the Boston University School of Medicine.

An application and résumé are required.

Courses meet on the Medical Campus from Monday to Friday, 5:30 to 8:30 p.m., or Saturdays, 9 a.m. to noon. Choose 16 credits from the following courses:

**Fall Term**
- Auditing in Clinical Research or Clinical Data Management
- Design & Conduct of Clinical Trials
- Drug Development or Drug Discovery
- Good Clinical Practices (GCP) in Clinical Research
- Medical Terminology 1*

**Spring Term**
- Good Clinical Practices (GCP) in Clinical Research
- Introductory Pharmacology
- Medical Devices
- Medical Terminology 1*
- Medical Terminology 2*
- Planning & Operations in CR

**Summer Term**
- Medical Terminology 1*
- Medical Terminology 2*
- Regulatory & Compliance Issues
- Medical Writing in Clinical Research

A 4-credit clinical research practicum is also available.

*Indicates 2-credit course, also available online.
All other courses are 4 credits.
