

# THE UNDERGRADUATE CERTIFICATE IN CLINICAL RESEARCH AT BOSTON UNIVERSITY

Home to one of the nation's largest biotechnology and clinical sciences communities, Massachusetts offers an abundance of rewarding careers in science. Gain entry to the industry or improve your skills with the undergraduate Certificate in Clinical Research from Boston University's Metropolitan College.

This sixteen-credit certificate program provides specialized training for health professionals, enabling them to contribute to the design, conduct, and analysis of clinical trials. Credits can be applied to the Bachelor of Science (BS) in Biomedical Laboratory & Clinical Sciences offered through the Boston University School of Medicine.

Courses meet from 5:30 to 8:30 p.m. at the Medical Campus.

Students choose from the following:

## Fall Term

- Medical Terminology\*
- Regulatory and Compliance Issues
- Design and Conduct of Clinical Trials
- Auditing in Clinical Research

## Spring Term

- Medical Terminology\*
- Technologies in Clinical Research
- Introductory Pharmacology
- Clinical Data Management
- Medical Devices

## Summer Term

- Good Clinical Practices (GCP) in Clinical Research
- Legal and Ethical Issues in Clinical Research\*
- Technical Writing in Clinical Research

\*Indicates 2-credit course. All other courses are 4 credits.
