Boston University National Science Foundation Research Traineeship Program

Understanding the Brain: Neurophotonics

A university-wide community of doctoral students in biology, neuroscience, biophysics, biomedical, and mechanical engineering with focused professional development and graduate training in neurophotonics.

Trainees will engage in:

- Immersive hands-on training experiences and lab rotations with leading neurophotonics researchers
- Interdisciplinary coursework and dissertation
- Professional development mentoring
- Annual symposium
- Summer school workshops, national conferences, peer-led seminars, journal club and more

Interested Trainees:

- **New doctoral applicants:** indicate NRT-neurophotonics in your personal statement as part of your BU doctoral graduate application
- **Enrolled doctoral students:** contact Helen Fawcett at nrt@bu.edu

For more information or questions regarding the program, contact Program Coordinator Prof. Helen Fawcett (nrt@bu.edu) or visit our website at http://www.bu.edu/neurophotonics-nrt
