

Annual Report on Program Student Learning Outcomes Assessment

Program: BA in Architectural Studies

Program Contact and Title: Fred Kleiner, Chair, Department of History of Art & Architecture

College/School Contact and Title: Susan Jackson, Associate Dean

Date: October 2013

1. List the learning outcomes for the program

Students graduating with a major in Architectural Studies should be able to:

1. Demonstrate basic knowledge of specific areas of learning, including drawing and drafting, that provide foundations for careers in architecture or related fields of design.
2. Read critically, think critically, design creatively, and write synthetically about topics in architecture and urbanism.
3. Acquire a foundation in the history and theory of architecture and urbanism.
4. Master effective analysis of visual, spatial, and structural issues in architecture
5. Conduct research, manage evidence, and construct an argument concerning a topic in architecture, landscape, or urbanism.
