

Annual Report on Program Student Learning Outcomes Assessment

Program: MFA Sculpture

Program Contact and Title: Sachi Akiyama, Assistant Professor

College of Fine Arts, School of Visual Arts: Lynne Allen, Director and Professor

1. Learning Objectives:

Learning Objectives:

Students graduating with an MFA in Sculpture are expected to:

- a. Demonstrate the development of individual expression through a variety of media and stylistic forms.
- b. Demonstrate a mastery of a wide range of technical and conceptual skills necessary for a contemporary art practice.
- c. Demonstrate the ability to interact with other students and art professionals from fellow artistic disciplines, as they would in the greater art world.
- d. Demonstrate independence of thought, aesthetic sensibility, and preparedness for an artist career in today's dynamic and global art world.
