Program**: Master of Engineering in Computer Engineering**
Program Contact and Title: David Castañón, Ph.D., Chair of Electrical and Computer Engineering
College/School Contact and Title: Hamid Nawab, Ph.D., Associate Chair for Graduate Programs

1. Learning Outcomes
Graduates of the Master of Engineering program in Computer Engineering will be able to:
1. Apply knowledge of mathematics, science, and engineering to identify, formulate, and solve electrical engineering problems.
2. Understand the impact of engineering solutions in a global, economic, environmental and societal context.
3. Use modern engineering tools and techniques to successfully practice the engineering profession in a variety of settings.
4. Use oral and written communication to convey technical concepts to engineers and non-engineers.
5. Collaborate as member or leader of a technical project team.
