

Annual Report on Program Student Learning Outcomes Assessment

Program: **MS in Medical Anthropology and Cross-Cultural Practice**

Program Contact and Title: Linda L. Barnes, PhD, Director

College/School Contact and Title: MaryAnn Campion, Director of Program Assessment for GMS

1. List the learning outcomes for the program (if you are new to program assessment, you might want to begin with 3-5 primary outcomes):
(see examples attached)
 - a. Demonstrate advanced knowledge of the history and breadth of medical anthropology theory and its application in research
 - b. Demonstrate an ability to design and propose an original qualitative fieldwork research project for ethics-committee review and funding agencies
 - c. Demonstrate expertise in a particular area of research concentration
 - d. Demonstrate effective public and professional communication of medical anthropology research through publication and presentations
 - e. Demonstrate ability to collaborate with a group related to research focus, to develop applied dimensions
