

## Annual Report on Program Student Learning Outcomes Assessment

**Program:** Ph.D. in Geography and Environment

**Program Contact and Title:** Curtis Woodcock (Chair)

**College/School Contact and Title:** Jeffrey Hughes (Associate Dean, GRS)

### **Learning Objectives**

Students graduating with a Ph.D. in Geography and Environment are expected to:

1. Demonstrate advanced knowledge of the fundamental concepts and topics in a specific sub-field of geography and environment
2. Demonstrate understanding of key research questions, the research design process, and the quantitative and/or qualitative methods used in a specific sub-field of geography and environment
3. Produce and defend an original and substantial contribution to the field
4. Communicate research questions and results to the scientific community and communicate about problems in geography and environment to a broader audience
